

Woman Said to Have Been Look Out for Thieves

FARMER SHOOT AT MEN STEALING HAYSTACK

Constables Think That They Have Long-Sought Marauders

That Mrs. Louis Johnson with her 12-month-old babe in her arms, was assisting her husband and Rosy Wright last night in robbing the haystack of Road Master A. T. Newth in Fitchburg, who fired a volley of shot at the thieves is the charge of Constable W. C. Allen, who lodged the two men in the county jail early this morning. He states that in the arrest of Wright and Johnson he has the ring leaders of the gang of marauders who have been working Oakland's southern suburbs for the past year stealing chickens, potatoes, vegetables, hay and everything movable that could be sold without creating suspicion.

VICTIM OF HAY THIEVES.
Road Master Newth was the victim of the thieves two weeks ago when a large wagon load of feed was stolen from his place at Fitchburg.

Last night he saw a wagon drive up to his hay stacks. He took his shotgun and crawled around the house to where he could get a good look at the thief. **SHOT AT WRIGHT.**

Wright was in the act of loading an armful of hay when Newth blazed away at him with the shotgun. Wright jumped on the seat with Johnson, who was a few feet away, and drove off. Mrs. Johnson and her baby had disappeared in the dark.

Newth thought he wounded one of the men and telephoned to Constable Allen, who responded immediately and took up the trail. The noon light made the trail distinct as day and the officer soon discovered where one of the thieves was hiding.

FOUND IN BED.

Allen went to the home of Frank Roberts, a painter in Fitchburg, where he

found Wright. The young man was in bed and declared that he had been in the house since 4 o'clock in the afternoon. A different story was brought to light when Allen threw back the coverings and saw that Wright was fully dressed. His Johnson hiding in the shadow of a telephone pole. He made no effort to escape when the officer started after him, but claimed that he was not a thief. He said he and Wright were getting a little feed for their horses and would not have loaded the wagon entirely.

MADE A CONFESSION.
Johnson denied that his wife was on the look-out saying that his family was camping near the Newth place and Mrs. Johnson and her baby were merely returning to camp.

UNDER SUSPICION.
Constables Allen and Carroll of Brooklyn township have been called at every turn of the game by clever petty thieves whose plunder would aggregate hundreds of dollars. Not until last night did anybody get a chance at capturing the men at work. The officers declare that neither Johnson nor Wright have any visible means of support and that they are no other than members of the gang of petty thieves.

A confession is expected and a more serious charge than petty larceny will be placed against them when other evidence is obtained.

SOLDIERS FAIL TO AID IN SEARCH

Two Searchers for Archibald Return Discouraged and Worn, Declaring Troops Did Not Give Promised Help.

BERKELEY, July 8.—Robert Pike, one of the party organized ten days ago in Berkeley for the purpose of searching for Kenneth Archibald, the young Berkeleyan who disappeared in Klamath River canyon, returned to his home at 1712 Euclid avenue this morning worn and discouraged after a week's vain quest for the missing man. Pike says all hope of ever finding Archibald alive has been given up by his friends.

BELIEVE HIM DROWNED.
Pike believes Archibald fell into one of the high mountain lakes as he was wandering about in the darkness seeking the trail.

As human bodies rarely float in waters at these altitudes, he believes the tragic affair is closed.

Pike is bitter in what he declares was the flat refusal of the soldiers patrolling the Sierra forest reserve and the Sequoia National Park to give any assistance in the search. Despite the declarations of General Funston in San Francisco that a troop of cavalry had been dispatched to the region where Archibald was lost, Pike says that neither soldiers nor forest rangers ever went within thirty miles of the spot and that when they did appear they applied to them pleaded lack of definite orders to give assistance. The charges reflect the apathy and indifference of soldiers and other government employees in the Sierras as lawless.

ISSUE STATEMENT.
Before leaving Klamath river canyon Pike and Worth Ryder prepared a statement of their statement to soldiers and rangers which was made public upon Pike's arrival. It follows:

We have received many accounts of the hunt for Kenneth Archibald, a young Berkeleyan who disappeared in Klamath River canyon. It is a sad story, but the truth is that for an Indian no soldier ever started into the mountains. The entire section of the high mountains where Archibald was lost is patrolled by government rangers and a portion of it is patrolled by soldiers. The soldiers are not allowed to enter the mountains. It seems strange that a citizen of the United States, lost in a government reserve, could have been so long without help. It is a pity that the soldiers and rangers are not allowed to enter the mountains.

NO HELP FROM SOLDIERS.

General Funston told the friends of Archibald in San Francisco that he had ordered the soldiers from Sequoia National Park to join in the search. This is a lie. General Funston said he had given orders to the soldiers to join in the search. It is a lie. The soldiers are not allowed to enter the mountains. It seems strange that a citizen of the United States, lost in a government reserve, could have been so long without help. It is a pity that the soldiers and rangers are not allowed to enter the mountains.

"This and the treatment we got from the forest rangers all government officials was absolutely the worst. The government is not allowed to enter the mountains. It seems strange that a citizen of the United States, lost in a government reserve, could have been so long without help. It is a pity that the soldiers and rangers are not allowed to enter the mountains."

FALSE REPORTS.

One report has the finding of Archibald's glasses, but not one thing belonging to him was ever found. It also had him unconscious in an Indian hut in Paradise Canyon, but not a human being was seen. There are no Indians about in the high mountains. All of the searching was done by private citizens and done voluntarily. Not an officer of the army or the government showed up. The Sheriff of one county was reported to be on the hunt but he neither came near us nor sent any of his men.

Not too much can be said of the splendid way in which the Kenawyer pioneer residents of Kings Canyon responded to the call for help. All their supplies and animals were put at our immediate disposal and everything in their power was done to help us.

The region in which Archibald was lost is a rough granite high mountain country, snowbound and mostly above timber land. Every man who went in did so knowing that he must undergo terrible hardships, traveling always on foot, often with heavy packs over high peaks and the long dizzy cliffs.

Following is a list of the men who went in on the trail and they worked valiantly and willingly, but every foot of the country that it is possible for man to cover. Robert Pike, 1712 Euclid avenue, Berkeley, who went in specially after receiving the news of Archibald's loss. John Pike, his brother, 1314 Hotchkiss, J. W. Stewart, R. McCullough, Alvin Wilder, I. W. Griggs, Lord Bessford, Alvin Wilder, Bertha and Wadsworth of Oakland, Cecil Archibald of Los Angeles, Bell Robinson and Smith of Independence.

It is impossible to find a trace of Archibald in the granite and ice wastes of the high mountains. It is possible he may have been drowned if he had not been drowned the wolverines would have eaten the remains, leaving only the clothing.

ENGLISH SEA-FIGHTERS ARE INVOLVED IN FIERCE QUARREL

ADMIRAL LORD CHARLES BERESFORD, WHOSE QUARREL WITH THE ADMIRALTY OVER THE NOTORIOUS SIGNAL INCIDENT OF 1907 HAS BECOME A PUBLIC SCANDAL.

Notorious Sequel Incident Is Cause of Rancor

LONDON, July 8.—The campaign now being waged by the new papers against Admiral Lord Charles Beresford has reached a point where it seems inevitable that the government must interfere in some way to abate what is becoming a public scandal.

SIGNAL INCIDENT.

It is difficult to arrive at the true facts in the case but ever since the notorious signal incident on October 21, 1907, strained relations have existed between Lord Beresford and Rear Admiral Sir Percy Scott.

BERESFORD IS ANGRY.

Lord Beresford also has declined to continue his friendship with Sir John Fisher, first lord of the admiralty, owing to his agreement with the admiralty police.

This feeling has been so open that Lord Beresford at one of the king's levees held recently deliberately "cut" Sir John

in the presence of many naval and military officers.

DEMAND RESIGNATION.

Several influential London newspapers openly demanded for the resignation of the removal of Lord Beresford from the command of the Channel fleet on the ground that he was a dangerous officer with his superior or with his inferiors and that naval discussions of such a nature were a national danger.

UNFAIR PRESS CAMPAIGN.

Other papers contend that Lord Beresford is the victim of an unfair press campaign. The Standard asserts that Lord Beresford signalled to the fleet that he was quite right in disobeying a signal which the admiral had sent up during the recent maneuvers of the Channel fleet for an evolution which if carried out would have brought the cruisers, destroyers and torpedo boats into collision and this incident says the Standard is helping toward the restoration of friendly relations between the two officers.

JUDGE WELLS WINS IN CONTRA COSTA

Friends of Good Government and an Honest Primary Victorious at a Spirited Election.

MARTINEZ, July 8.—The contest in Contra Costa county over the State primary was won by the regular Republicans yesterday by a safe majority.

SIGNAL VICTORY

Judge William S. Wells and his friends won a signal victory at the polls after a spirited battle. The result of the election places Judge Wells right in the front ranks, as his enemies were lined up to defeat the primary plan. Opposition against him falls to the ground.

CAUSE OF CONTEST

The fight was precipitated by a letter written by Congressman Joseph R. Knowland to the chairman of the Republican County Central Committee of Contra Costa county, declaring in favor of placing the State primary law in operation in that county and pointing out the procedure necessary to be followed.

Mr. Knowland has favored the placing of the State primary law in operation throughout the entire Third Congressional district, pointing out to the voters from the several counties that under the primary law it was entirely optional with the electors as to whether the law should be mandatory in their various localities.

ELECTION CALLED

The Supervisors called an election to decide whether the voters would make the law mandatory in this county.

Judge Wells and his friends declared that they wanted the primary law made mandatory and went into the contest on the ground that they wanted fair primaries in the county, that is primaries that had all the safeguards of the State law.

OPPOSING FACTION

The opposing faction declared against primaries; that is, they wanted the old style primary, at which a voter could cast an illegal vote without being arrested and prosecuted.

Judge Wells and his friends made an honorable contest and they won the day for good government and clean politics.

The total vote cast in the county was 2861, divided as follows: For primaries, 1491; against primaries, 1386; majority, 105 in favor of the State primary law.

The vote by towns is as follows:

HIGHWAYMAN GETS \$16 IN HOLD-UP

Unfortunate Victim Suffers Two Robberies Within the Last Few Days

C. Graves of 1937 South Sutter street, Stockton and temporarily staying with Oakland friends at 1014 Magnolia street, was held up and robbed of \$16 by a long highwayman on Magnolia street near Tenth at 9 o'clock last evening.

Graves had alighted from an Eighth street car and was going north on Magnolia street to his residence. When passing Tenth street the highwayman stepped out from the shadow of a tree and presenting a revolver commanded Graves to hold up his hands. Graves did as commanded and the robber searched him taking only his purse containing the money.

Policemen Caveny and Underwood responded to a call for the police, but could find no trace of the robber except the empty purse which was left where the holdup occurred.

Graves was so badly frightened that it was impossible for him to give any description of the man except that he was masked and carried a revolver. He said that his house in Stockton had been burglarized a few days ago.

LANTERN SLIDES ADVERTISE TOWN

Effective Method of Publishing Oakland's Advantages Is Planned by Chamber

By means of lantern slides, Secretary Edwin Stearns of the Chamber of Commerce intends to advertise Oakland in the East. The slides are works of art and were made by an Oakland artist.

Rev. Herbert T. Moulton of Bridgeport, Maine, who is on a lecture tour of the New England States, will be among the first to use the slides which show all features of Oakland's water front, parks, public buildings and residences.

Numerous communications have been received by property owners in the South, who have become interested in Oakland through the slides.

Alameda county's horticultural resources, according to Ernest Verner of London, who visited the Chamber of Commerce, are more varied than that of the southern part of the State.

While he was there and he had not yet recovered from the scare he got at the time. The holdup of last night left him weak and helpless.

S. P. T. PUT LAMPS ON POLES

City to Condemn Rights of Way for Railway Extensions—Company to Pay for Street Work.

ALAMEDA, July 8.—At the special meeting last night of the City Council, a committee of the Southern Pacific Company, consisting of the representatives of the city, and a number of points involved in the proposed extensions of the line, were present. Assistant General Manager W. R. Scott, F. W. Hoot, and J. J. Allen of the legal department, representing the company, were present at the meeting. President Leong was absent from the meeting and Councilman Bullock presided.

The talk immediately turned to the charges from the city council, which was submitted by a letter from Scott to the Council. It was agreed at the meeting last night that the right of way should be the same as that originally proposed by the company. The right of way for the proposed new extensions will be secured by the city, and the company will improve the property through which the lines will pass, the grading and, in some cases, the construction of the tracks, to be done by the Southern Pacific within two years.

According to the plans of the Southern Pacific, the Alameda local line will be extended to the city of Oakland. It was stated at the meeting by the officials that the line would be in time for the summer of 1909. The passengers from Alameda will have the advantage of direct service to Oakland, said Mayor Scott.

It was stated by several members of the Council that the proposed extension of the line would come in direct competition with the proposed extension of the Alameda and San Francisco line. It is certain that the Southern Pacific intends to operate an electric line from Alameda to Oakland, for as much as was said by the company's representatives last night.

Mr. Schwartz owns the property upon which the farm will be located and a ten-year lease is now being made out for the land. LOW FACES LEAGUE IS TO IMPROVE PERJURY CHARGE CITY

William Zingg Arrested on the Complaint of Private Detective and Secures His Release on \$2000 Bail.

ALAMEDA, July 8.—William Zingg, a Park-street merchant, was arrested last night on a warrant charging perjury and sworn out by Private Detective Frank McQuaid.

Zingg was being placed under \$2000 bonds, with G. W. Zeh and L. L. Konigshefer as sureties. The case will come up in Judge Tappan's court tomorrow.

The action against Zingg was taken by the Alameda Civic League, after it had attempted to get the Alameda Grand Jury to indict him on the perjury charge. The desired action was not obtained from that body.

CONTRADICTS DETECTIVES.

The charge against Zingg arose from his testimony in his own behalf in regard to the charges of pool-selling against him. After Private Detective McQuaid and Keesling had testified that Zingg had personally sold them pool, Zingg flatly contradicted their testimony. Zingg's testimony secured his acquittal, but the Civic League has brought up the matter again by instituting the perjury charge.

There are a number of charges against Zingg, and it is stated that the Civic League intends to prosecute all of them.

BROKEN GLASS, SPREAD IN FIELD, ORIGINATES DANGEROUS GRASS FIRE

BERKELEY, July 8.—A grass fire at the corner of Telegraph avenue and Ward street yesterday afternoon was caused by the attendance of the Berkeley and Regent fire companies. The fire burned over a number of vacant lots and for a time threatened some residences. The firemen believe that the blaze was started by the mechanical focusing of the rays of the sun through a piece of broken glass. A number of pieces of broken glass were found and in instances the reflection was so hot as to blister the hand. The firemen declare that many of the grass fires about the town of late have undoubtedly resulted from this rather novel origin.

The pet abomination, though, who makes me throw a spasm. Is the idiotic pest who chortles through a megaphone.

\$256,807 IN BERKELEY'S TREASURY

BERKELEY, July 8.—According to a report presented to the town trustees last night the cash on hand at the beginning of the new fiscal year is \$256,807. The report was certified by Mayor Ferrier, Clerk Mendonhall and Treasurer Gov. Of this amount \$3,922.05 was represented by cash, checks paid warrants and currency in the till, and \$252,884.92 by cash in the safe deposit vaults of the banks. The balance is on deposit, secured by municipal bonds in the several banks of the city.

Bank deposits are divided as follows: First National Bank, \$32,864.41; Berkeley Bank of Savings, \$44,638.71; South Berkeley Bank, \$25,546.64; West Berkeley Bank, \$25,301.87; Berkeley National Bank, not subject to check, \$34,041.12. Total, \$256,807.44. The treasury's cash book shows a balance of \$256,752.97, the discrepancy being explained by the presence of cash over the book balance for double payments, etc.

Say, folks, you'd ought to hear "The Jolly Musketeers" at IDORA PARK!

Wednesday Eve., July 8th, 1908.

It's simply great!

It's the best thing the Idora Co. have put on for months, it's full of snap and ginger and life, it's tuneful, it's clever it's bright and it's wholesome.

It's a show you'd pay \$2.00 to see in New York, it's worth crossing the bay to attend just to watch Walter Catlett and his "Sessin Frasse." It's full of clever music, of irresistible comedy, of bright new songs, and still through it all there runs a thread of romance that holds you to the anxious seat through the entire performance.

It's the cleverest rendition of "The Jolly Musketeers" ever put upon the boards of California; it speaks worlds of praise for Charles Swickard, the new stage director—it marks the beginning of a wonderfully successful season for the company. It means a splendid impetus to the interest in Idora Park. It means a world of entertainment for us all for months to come.

The first act is a wonder! "The King's Own Musketeers," by Persse and the company is a magnificent piece of work. Miss Fasker as Yvette, the Inn Keeper's daughter handles her part in a manner so dainty, so finished, so completely fascinating that we wonder in admiration at her art and demand encore after encore after each of her pretty little efforts.

In all, "The Jolly Musketeers" is a splendid success, magnificently staged, elegantly costumed and wonderfully well managed.

You'll be glad you went if you go tonight. You'll agree with the critics that it's a two-dollar show and yet the best seat in the house costs but half a dollar.

Why, it's worth half a dollar, folks, just to see the second half of the first act. It's simply GREAT!

COUNT BONI BEGINS A FIGHT

Former Husband of Anna Gould Is Seeking to Regain the Custody of the Three Children.

PARIS July 8.—Count Boni de Castellane, who was married yesterday in London to Prince Helle de Sagan, the count's cousin has opened what promises to be a sensational legal battle for the possession of his three children, the offspring of his marriage with Miss Anna Gould. The step was taken by the count yesterday which was generally misinterpreted as merely a preliminary skirmish.

This was not a formal demand for the custody of the children but an attempt to have them returned to the custody of his son, Guy, from the residence of his former wife at Versailles.

PETITIONS COURT. Maitre Bonnet, counsel for the count yesterday afternoon petitioned the court to return his clients right to retain Guy temporarily on account of the child's illness and because of the instability of the mother's mind.

DOMINATED BY PRINCE. Maitre Bonnet told the correspondents of the Associated Press today that a decided move would be made in a few days when he would ask the court to give the custody of all the children to the count on the ground that the Princess de Sagan was not a suitable protector for them inasmuch as she is under the complete dominion and control of Prince Helle, who is unworthy to hold position of father to the children.

SCORES MME GOULD. As proof that Mme. Gould was completely dominated by the Prince de Sagan, we will offer her action in traveling in Italy, the Riviera and to England in company with the Prince de Sagan before she was married to him. Maitre Bonnet declared. The case will proceed on as the Princess de Sagan announces her readiness to defend her interests.

PRINCE'S RIVAL. The other half of the team of Parisian law is a new recruit, M. L. de la Motte, a stocky built young man, of 19 years who has proven himself little less than a wonder at the national game. He is right-handed but very left-handed. "I think the latter has a great advantage when fighting here," said Maitre Bonnet. "You see, the boy is swinging toward the left as one hits the ball and the right hand but the right hand is swinging away from the ball and has to stop the ball a second and start all over again after the ball is hit. That's why I bet left hand."

Correspondence about the extradition of the four American prisoners from Honduras to the United States is in progress. Albert W. Bailey, H. H. Myers and M. Fred. Husband Believes That His Wife Has Committed Suicide and Is Much Distressed.

(Special to The Tribune.) SAN FRANCISCO, July 8.—When William Miller, a carpenter who lives at 855 Broadway, returned home last evening he discovered a letter from his wife in which she threatened suicide. The message gave him great concern and this morning he appealed to Captain of Detectives Kelly to make an investigation. The letter reads as follows:

I am tired of life. Good-bye. You will never see me again. Mamie. Mrs. Miller has been employed as a domestic in a residence on Van Ness avenue and this afternoon a detective will visit the place to find out whether she has carried out her threat. Miller protests that his family life has always been a happy one and he knows of no reason why his wife should want to kill herself.

MANY FEATURE ACTS AT THE BELL THEATER

JOHN AND BERTHA GLEASON with Fred Houlihan at the Bell in a Musical and Dancing Act

If you enjoy good vaudeville a mixing of sense and nonsense, clever sketches and droll comedians make a bee line for the Bell Theater this week. In all of the eight big attractions on the bill this week there is a potent mix of fun, pathos and genuine emotion. The Gleasons, John and Bertha with Houlihan are a trio of clever singers and exceptional dancers while the piano playing of Houlihan ranks him with the artists. Among the really good sketches are "The Seamstress," one that vaudeville

audiences are not always favored with and ably handled by Miss Franklin Gale & Co. The three Zorros in their bicycle act are humorous. Their performance brings the laugh as well as the thrill and there are numerous opportunities for them. McNish and Penfold, comedy singing and dancing artists, Leon and Adeline and George O'Raney, the charming comedienne are excellent drawing cards. The motion pictures shown are first-class.

JAY BURG THIS BUT FOR MERCHANTS, SAYS GIER

Director Arper Objects to Exchange Advertising to Benefit Property Owners.

L. I. Meyer of the Aerial Photographing Company of Chicago introduced a plan at the Merchants Exchange last night to advertise Oakland by blimps. The view photographs. George W. Arper, one of the directors of the Exchange, opposed the idea upon the grounds that through the advertising of the city in the manner introduced by Meyer would benefit property owners in the main and as the Merchants Exchange was limited to business men he stated he did not believe that it was in the power of that body to aid in this scheme. Arper also contended that the Chamber of Commerce would attend to the advertising as they distribute all the literature of Alameda county. J. J. White, P. A. Young and Theodore Gier were appointed to act in the matter.

ENGAGE IN ARGUMENT. After the committee was selected a lively discussion ensued in which Arper and Gier were the spokesmen. Arper maintained that the advertising would not benefit the merchant to any extent. He said as the result of this property values would go up and the merchant's rent goes up. The property owner who sits around and does nothing derives the benefit," said Arper. "I don't think gentlemen that this organization ought to go to any expense for the benefit of a few individuals." Colonel Theodore Gier said: "The matter of advertising has been in the past and is in the present and will be in the future up to the merchants. If we benefit ourselves by boosting Oakland let us not be jealous of the property owner. If we all felt as the majority of them do Oakland would still be a jay town but the merchant is progressive. Let us be liberal."

J. DALZELL BROWN IN COUNTY JAIL

Bank Wrecker Has No Yet Been Sent Back to San Quentin Prison.

(Special to The Tribune.) SAN FRANCISCO, July 8.—Although Superior Judge Conley continued the cases against the several officials of the defunct California Safe Deposit & Trust Company until August 10, J. Dalzell Brown the self-confessed embezzler and star witness of the prosecution is still living in comparative ease at the county jail in this city.

REMAINS IN JAIL. Ever since May 27 when it became apparent that Brown was to be a witness he has remained in the local county jail despite the fact that the order of sentence reads "You shall be confined in the State's prison at San Quentin for a period of eighteen months."

NO EXCUSE OFFERED. No excuse is offered by the sheriff for not removing Brown to San Quentin during the two months while elapsed between the time he testified in the trial of Barnett to the time he will be needed in the case of Treadwell, but the matter is in a measure put up to the district attorney. It will be remembered in this connection that Attorney Hiram Johnson, who represented Brown in all the court proceedings, was formerly one of the foremost legal lights of the so-called graft prosecution and is at it very close to the officials of the district attorney's office.

GIER NAMED FOR TARIFF MEETING

Fourth of July Committee Reports Surplus Left After Celebration.

At the regular meeting of the Merchants Exchange last night George Walker, who is in Oregon arranging for Oakland's concessions at the Alaska

Yukon Exposition in Seattle, Walker is accompanied by J. A. Fletcher, secretary of the Agricultural Commission.

Theodore Gier was appointed a committee of one to present the Merchants Exchange at a convention called by Governor Gillet to consider tariff revision. Colonel Gier will discuss the wire industry of California at the session.

EXERCISES SUCCESSFUL. George W. Arper, who was chairman of the literary committee of the Fourth of July celebration, reported that the exercises in the Macdonough Theater proved a delightful success. Upon motion of Theodore Gier he was requested to write letters of thanks to all who participated in the patriotic services. (For reported that here was a surplus left from the Fourth of July celebration.

Although the fleet reception cost the business men a large sum \$2500 was raised for the Fourth of July celebration.

Fred Sinclair stated that the display would have been a great success had it not been for the explosion of the nitar which instantly killed a woman and child.

\$200,000 Fire at College Point, L. I.

NEW YORK, July 8.—Two hotels and twenty cottages were destroyed by fire at College Point, L. I., this afternoon. There was no loss of life. The loss is estimated at \$200,000.

Many old houses in Holland have a special door which is never opened except on two occasions—when there is a marriage or a death in the family. BRYAN MEN ARE TRYING TO STAMPEDE CONVENTION

Will Lead to Fight Drastic Measures in Unseating Delegates

BITTER PROTESTS BEING MADE AGAINST THE TURNING DOWN OF GUFFEY AND OTHER LEADERS

Convention Is Adjourned Until This Evening

Special to THE TRIBUNE.

DENVER, July 8.—The fight against Bryan is on in earnest. From now until the end it will be a struggle such as never has been witnessed in any Democratic convention for years.

This has been precipitated by the ruling of the committee on credentials, which unseated the ten Guffey delegates from that State.

Just before the hour for calling the convention to order today, fourteen States, including New York, which latter State has been considered a pivotal point upon which the Bryan opposition would swing, have given notice that they will join the general protest on the floor of the convention against this action of the credential committee.

Until this new phase was developed it had been conceded that Bryan was in full swing of the convention. While it is not thought that the developments will in any way interfere with his nomination, yet stranger things have happened when a convention developed a feeling which now exists.

It was this state of affairs more than anything else which lead to the adjournment of today's session until 8 o'clock tonight in defiance of the time-table arranged for the convention. Between now and then the committee on credentials will be the center of attraction and Democratic history may be made.

The vote in the committee on credentials on the Pennsylvania contest shows fourteen States, including New York, voting with Col. Guffey's forces. As the latter are anti-Bryan the attitude of these fourteen States was regarded as showing a significant under current of sentiment. The fourteen States voting with the Guffey forces were: New York, New Jersey, Tennessee, Texas, Virginia, West Virginia, Delaware, Illinois, Ohio, Minnesota, Georgia, Louisiana, Kentucky, Maryland.

A minority report from the credentials committee is being prepared by Attorney General Strauss of Maryland, and it is expected that the representatives of the fourteen States who voted with Guffey will sign the minority report.

RECESS IS DECLARED UNTIL TONIGHT

**Real Tussle Comes Tonight When
Convention Meets at 8 O'clock;
New York Will Then Show
Its True Colors.**

CONVENTION HALL, Denver, July 8.—The Democratic national convention held a brief session today but will meet again at 8 o'clock tonight, when stirring scenes and highly colored incidents are expected.

The delay was made necessary by the inability of the committee on credentials to have its report ready for the convention before 2 o'clock in the afternoon. The resolutions committee, too, was making slow progress and it became certain that the delay must come at some time. It was decided that it should take place today.

GUFFEY FIGHT.—The chief interest of the day centered around the action of the credentials committee in declaring against

MISS GEORGIE STRONG TO WED CHAS. HUBBARD

The engagement is announced of Miss Georgie Strong and Charles Hubbard. The wedding will take place in the fall. Both are well-known members of the smart set.

Colonel James Guffey of Pennsylvania and the famous propagandist, Mr. J. A. Munro, are in the city to organize his forces for a battle in the convention which he was determined to carry to the uttermost. In this fight New York for the first time gave an indication of where its colors will fly in any contest that may come up and in company with thirteen other states signed the minority credentials report.

ANTI-BRYAN STRENGTH.—The aggregate voting strength of these states is 376 but that figure is not an exact statement of the votes that Guffey will be able to call to his side, as not all of them are acting under the unit rule.

TAFT MEN STAND PAT

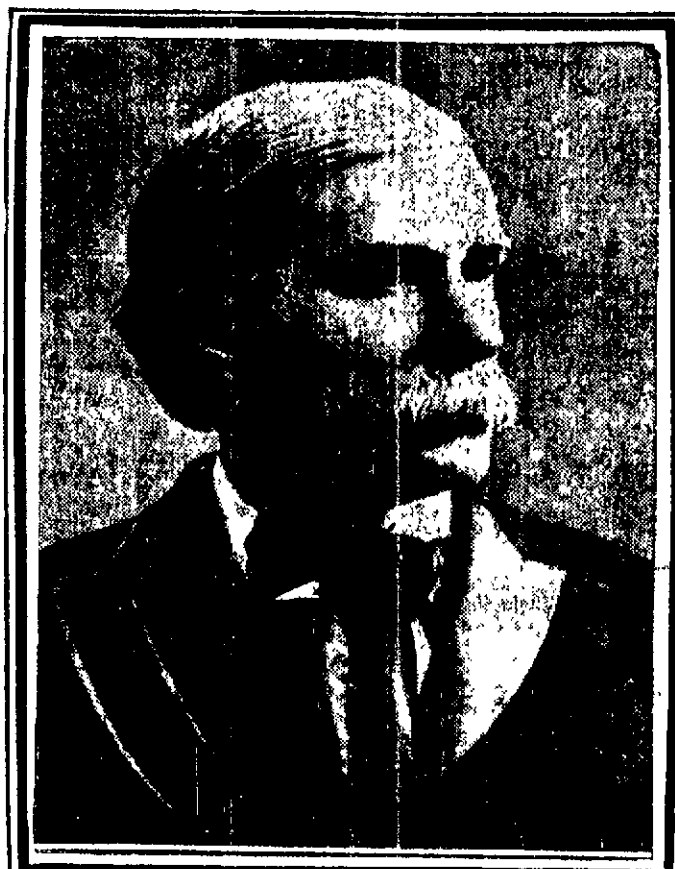

Will Not Take Down Their Banner Hung Up in the Streets of Lincoln Yesterday—May Invoke a City Ordinance.

LINCOLN, Neb., July 8.—The Taft banner on O street, which has been the source of considerable annoyance to local Democrats, was still in place this morning and Chairman Hayward of the Republican State Central Committee, said the committee had no intention of removing it.

REPUBLICANS PROTEST.—One Lincoln Republican paper has made a vigorous crusade against the action of the committee and other party organs are only lukewarm toward it. The first step towards the removal of the banner was taken this morning when a number of Lincoln business men began the circulation of a petition to the Republican State Central Committee that it be taken down.

MAY INVOKE ORDINANCE.—John T. Kent, chairman of the local Democratic reception committee declared for the Associated Press that the city ordinance against signs might be invoked to bring down the obnoxious banner, but said the Republicans would be given an opportunity to exhibit their local pride before drastic action was taken.

HENRY BUTTERS AND HIS WIFE HAVE SEPARATED

Capitalist Deeded Valuable Property to Her and She Refused to Deed It Back Again.

The rumor of a separation of Mr. and Mrs. Henry Butters was verified today, when it became known that Mr. Butters had not resided at the Alta Vista home for more than a year. He has had a flat in San Francisco on Mason street, near Sutter.

NERVOUS PROSTRATION.

Mr. Butters is lying very ill of nervous prostration and exhaustion at the home of his mother, Mrs. S. L. Butters in Berkeley.

Soon after the return of Mr. and Mrs. Butters from their trip abroad Mr. Butters took apartments in San Francisco. This was explained by saying that the young ladies of the household attended so many affairs across the bay that it was thought best to have a place in which they could remain if necessary. This, however, was not the fact.

PROMINENT CAPITALIST.

Henry Butters is the president of the Northern Electric Railway and one of the most prominent capitalists of the State.

Today, when Mrs. S. L. Butters was visited at her home at 3645 Telegraph avenue by a TRIBUNE reporter she said that her son was too ill to be seen, but consented to talk about the separation. She said:

HIS MOTHER'S STATEMENT.

"When I do not indifferently deny

the report in the morning papers you must draw your own inferences. My son has been with me for about one year and is a very sick man. He is constantly under the care of his physician, Dr. Ruggin. I do not wish to criticize but I feel he took the only step possible when he came to my home.

"He will be taken to the mountains as soon as the doctor thinks it advisable and it is hoped that the rest and quiet will restore him to a semblance of health."

REGRETS PUBLICITY.

Mrs. S. L. Butters had but one request to make and that was that Mr. Butters' domestic affairs should be given no unnecessary publicity.

MRS. HENRY BUTTERS ABSENT.

It was impossible to see any one at the Alta Vista home as Mrs. Henry Butters and her family left for Aetna Springs early this morning.

VALUABLE PROPERTY DEEDED.

A close personal friend of Mrs. Henry Butters said:

"Mr. Butters deeded to his wife the Palmer-Stone building at Sixteenth street and San Pablo avenue and other property. The San Pablo avenue property alone is valued at \$350,000, so you see, Mrs. Butters is independently rich in her own right. When Mr. Butters wanted this property deeded back his wife refused to do so and this caused a big row in the family."

DELEGATES MARCH FOR MORE THAN AN HOUR IN CONVENTION HALL WITH BANDS AND FLAGS

CONVENTION HALL, Denver, July 8.—1:25 p. m.—The first great demonstration of the convention occurred when Senator Gore, in an impromptu speech mentioned the name of "Bryan." It was like a spark to powder. The demonstration was confined largely to the delegates.

1:52 p. m.—The pandemonium has continued for thirty-three minutes, with no apparent sign of ending.

2:02 p. m.—Everybody joins in singing "America."

2:10 p. m.—There is no apparent sign that the tumult can be ended. Every possible device to increase the uproar is being employed.

BAND IN PARADE.

2:14 p. m.—After fifty-five minutes of intense demonstration the cowboy band left its place in the gallery and joined the procession of standards on the floor. The huge decoration eagles were also snatched from their posts and borne about the hall.

2:18 p. m.—The demonstration has now lasted a full hour, and is raging with unabated fury.

FINALLY ADJOURNED.

Order was restored at 2:47 p. m., the demonstration lasting one hour and twenty-seven minutes and the convention took a recess until 8 p. m. at 2:45 p. m.

ALAMEDA COUNTY GAINS \$6,198,187 ASSESSMENT

Substantial Increase of Property Values Shown by Roll of Property

The total valuation of assessable property in Alameda county this year aggregates \$179,043,671, a gain of \$6,198,187 over the total amount on last year's assessment roll. This amount does not include the \$925,700 worth of reprints and dead and dumb mortgages, which are not assessable, yet a point in the wealth of the county.

The total valuations of property in the various cities and townships of the county are as follows, according to the announcement made by the County Assessor this morning: Alameda, \$14,315,273; Berkeley, \$29,581,684; Oakland, \$91,582,835; Emeryville, \$2,809,820; San Leandro, \$1,188,110; Pleasanton, \$418,941; Piedmont, \$5,073,550; Livermore, \$678,556; Hayward, \$1,093,900; Brooklyn township, \$11,648,880; Oakland township, \$3,499,267; Eden township, \$4,244,920; Pleasanton township, \$3,559,362; Washington township, \$7,115,500; Murray township, \$1,836,886.

Assessed valuation of city and town lots in Alameda is given as \$7,275,600; in Oakland, \$57,693,300; in Berkeley, \$17,828,500. Improvements in Oakland property are valued at \$26,190,900; Berkeley, \$9,589,300; Alameda, \$5,893,350. Personal property in Oakland is valued at \$9,568,851; Berkeley, \$2,019,200.

W. R. Jones of 483 Forty-eighth street, a brother-in-law of Alanson W. Shumway, one of the men who was killed.

COMPLAINT FILED.

The complaint was filed this morning and Barry will be arraigned upon it in Judge Smith's court tomorrow morning. In the meantime he has been released on \$5000 bail furnished by P. H. McEvoy, a contractor of Menlo Park in San Mateo county and John G. Herr, a saloon keeper of Oakland.

Before the issuance of the complaint against Barry, Jones was in consultation with Captain of Detectives Petersen and speaking of the case from a police standpoint Captain Petersen said that it was through no desire on the part of the department to persecute Barry but when seven lives were lost, some one should be charged with the responsibility for it.

PURPOSE OF THE POLICE.

All that was wanted by the police department was a judicial inquiry. When that was had and it was found that Barry was not the responsible party, the police would be satisfied and that would end it as far as they were concerned. The filing of the complaint is simply to institute a beginning of an inquiry which it is felt ought to be made in the face of so grave a disaster.

PROSECUTES ENGINEER BARRY

Brother of Man Killed in Last Saturday's Wreck Files Charge of Manslaughter Against Railroad Employee.

Evertt J. Barry, the engineer of the Santa Cruz train which was run into at First and Webster streets Saturday night by the Alameda local, when seven lives were lost and seventeen others were more or less seriously injured, has been formally charged with manslaughter upon the complaint

MAYOR APPOINTS HEALTH OFFICIALS

Dr. A. F. Larkey and Dr. E. A. Dukes Given Reappointment
Dr. Hamlin Is a New Member.

Mayor Mott this afternoon announced the reappointment of Dr. A. F. Larkey and Dr. E. A. Dukes to be members of the Board of Health. He has also appointed Dr. O. P. Hamlin as a member of the board to succeed Dr. E. R. Sullivan, who has resigned on account of an intended trip through Europe.

BLISS DID NOT WANT POSITION

He was the One Who Recommended That the Committee Appoint Mr. Sheldon.

HOT SPRINGS, Va., July 2.—Mr. Sheldon was elected on the recommendation of Mr. Bliss of New York, former treasurer, of the National Committee, who declined to accept reelection. Mr. Sheldon is the president of the Union League Club of New York, and was treasurer of the Republican State Committee during the campaign of Mr. Hughes for Governor of New York, and is a member of the executive committee of the National Committee. Mr. Bliss, who is a member of the executive committee of the National Committee, is a member of the executive committee of the National Committee. Mr. Bliss, who is a member of the executive committee of the National Committee, is a member of the executive committee of the National Committee.

OTHER ACTION TAKEN.

The committee was in session an hour and a half when the announcement was made. The executive committee ordered that the chairman, secretary, treasurer and sergeant-at-arms of the national committee all occupy similar positions on the executive committee. The treasurer will be ex-officio member of the executive committee. Every member of the committee is present.

CONGRESSIONAL COMMITTEE.

No action was taken by the executive committee on the matter of Representative Sherman retaining the chairmanship of the congressional committee while a vice-presidential candidate. It is understood the committee is not inclined to interfere with the congressional committee. It is said here that Representative McKinley will probably be appointed by Mr. Sherman as assistant treasurer, with headquarters at Chicago, but no authoritative statement on that effect was made.

MRS. CLEVELAND'S MANY MESSAGES

Cannot Find Time to Answer All the Notes Sent to Her.

PRINCETON, N. J., July 2.—So great has been the number of messages of condolence received by Mrs. Grover Cleveland since the death of former President Cleveland that she has found it impossible to make personal responses to all of them. Therefore, Mrs. Cleveland today gave to the press the following communication in acknowledgment of these messages:

"Westland, Princeton, N. J., July 2, 1936. "In our great grief there have come to me children and myself from all over the country and from other lands expressions of condolence in our bereavement and of a participation in our sorrow. My heart is touched by these tributes and all the tributes paid to Mr. Cleveland in word and act. I am deeply grateful for the comfort that God gives in this sorrow. I regret that the multitude of messages renders it impossible for me to send a personal word of thanks for each. The press has kindly offered to bear for me this expression of my own and my children's gratitude and appreciation and I hope it will reach all who have thought of him and of us. (Signed) 'FRANCES F. CLEVELAND.'"

MAYOR AND CONTRACTOR HAVE BREEZY DIALOGUE

There Was Heated Discussion Over the Disposal of Garbage

At the meeting of the Board of Public Works this morning there was a lively controversy between Mayor Mott and City Surveyor Turner on one side and Captain R. T. Wall of the garbage schooner Signal on the other side, concerning the carrying away of garbage to deep water beyond the Golden Gate, where it is dumped into the sea.

The bills presented by Wall Bros. amounted to \$3577.30 and objection was made by the Mayor and Mr. Turner that small leads were taken a great many times. Captain Wall said that the channel was too shallow to allow the vessel to get out if it were fully loaded. Mayor Mott said it was not the fault of the city; that the city had only agreed to furnish a wharf and water at the end of the wharf of sufficient depth to accommodate the vessel.

Wall—But all we want is to be treated fairly in this matter.

MAYOR IS WROTH.

The Mayor—You are treated fairly, and more than fairly. The city is paying you a highway price for the work, and you ought to be satisfied.

Captain Wall—I don't know what you mean by that statement. We have no such big thing as you imagine. I have more worry about this contract than anything else that I ever had anything to do with.

The Mayor—But you are getting paid for the worry.

Captain Wall—Not by a long shot.

The Mayor—Well, if you haven't got

the biggest thing that has been passed out for a long time then I'm no judge. FEAR A LOSS.

Captain Wall—You are mistaken. I don't know that we shall be able to make a cent. Everybody is congratulating us now, but before we began they all predicted that we would fail. Such a plan never was made a success before, and there is no sure thing that we will make a cent. Our bid was \$1200 below that of anybody else, and there were five other bidders.

The Mayor—Well, I'll modify my remark about your high figures, for it is true that you bid fairly, and the contract went to you properly, but when you took only half a load the city was the loser, and I don't think we ought to pay you full price for the trip.

FALL OUT OF CITY.

"Everybody is trying to take a fall out of the city. It's a regular jug-handle proposition and I never see the city get hold of the handle. It provokes me to have these things come up so often."

Captain Wall—I provoke you to have any one suggest that I am trying to treat the city unfairly. You talk as if we are about to make a million out of this contract.

The Mayor—I don't think you will make a million, but you have a good chance and must treat the city right. COMPROMISE EFFECTED.

All hands cooled down, and a compromise was reached by cutting the bill in half, it being understood that full loads will be taken hereafter.

"But we must have enough water in the channel to get the vessel out," said Captain Wall.

"That is not up to the city," said the Mayor, and the trouble went over for another month.

Al Fresco Luncheon Given by the Misses Morrison of San Jose

SAN FRANCISCO, July 2.—The Misses Morrison of San Jose entertained a large house party over the Fourth, the feature of the day being a delightful "Al Fresco" luncheon, served in one of the bays of the beautiful Morrison garden—a "bon voyage" to Colonel and Mrs. John L. Clem. The decorations were of lanterns and streamers of red, white and blue, masses of hollyhocks, gladioli, lilies and large vases filled with magnolias adorned the table. National colors were in evidence in every possible device. Place cards in water colors were most artistic, the designs suggestive of the Fourth. Over thirty-five covers were laid, the guests including: Colonel Clem, U. S. A.; Captain Ashburn, U. S. A.; Mrs. Ashburn, Dr. Field, U. S. A.; Mrs. Field, Lieutenant Commander N. Wiley of the Kentucky, General and Mrs. Dougherty of Fruitvale, Captain Lockwood, U. S. A.; Dr. Smith, Mr. Burnett, Dr. and Mrs. J. D. Whitney, John Wallace Wilson, Mr. Findlay, Lieutenant Commander and Mrs. Yates Sterling, Mr. and Mrs. C. M. Dougherty of Pleasanton, Pete Lett Warren, U. S. N. of the Wisconsin; Don Morrison, U. S. N. of the West Virginia; Will Dougherty, Mr. and Mrs. Holmes, George Wakefield, Dr. Foulkes, Miss Marguerite Rogers, Lewis Dougherty of Pleasanton and others. A handsome dinner of fifteen covers was served at 2 o'clock, the guests all returning to town on the late train Sunday afternoon, with renewed enthusiasm and the very graceful hospitality of these charming hostesses.

Miss Jennie Crocker arrived in New York yesterday from London, where she enjoyed a brilliant season as the guest of Ambassador Whitehall Reid and Mrs. Reid at their palatial residence, Dorchester House.

Miss Marian and Miss Elizabeth Newhall left last night for Tahoe to join their mother, Mrs. William Mayo Newhall, who is established for the summer at the Tabern.

Mrs. Brownell, mother of Dr. and Earl E. Brownell, has been alarmingly ill at Castle Craig with an acute attack of appendicitis. Since the operation last week she has improved steadily and gratifying reports of her condition are daily received.

Mrs. Charles S. Stokes, wife of Dr.

Charles S. Stokes, U. S. N., of the hospital ship Relief, is visiting relatives in Berkeley.

Mr. and Mrs. Frank Madison and their children are at the hotel in Inverness, where they will remain during the summer.

Mr. and Mrs. William A. Magee and their children returned Monday to their Fruitvale home after enjoying the Fourth at Inverness.

Dr. Morris Herzstein is at the Tahoe Tavern, where he is enjoying his usual outing.

Mrs. Rosamund Niles, who is at present a guest at the Fairmont, will leave the end of this week for Napa county, where she will visit Mrs. W. B. Bourn and her daughters, Mrs. James Tucker, Mrs. Alston Hayne and Miss Ida Bourn. Miss Ida Bourn has been visiting the Misses Rodgers, but has returned to her country home in Napa county.

Dr. and Miss Wakefield of San Jose, after an absence of several months, have returned to their home on South Tenth street.

Encouraging news comes from the sickroom of Mrs. Oscar Fitzhugh Long, who is ill at the Fabiola Hospital, where she has recently undergone an operation for appendicitis.

Mr. and Mrs. George T. Mayre Jr. gave a dinner Sunday evening at the Fairmont complimentary to Captain Edward Qualtrough, U. S. N., and Mrs. Qualtrough.

Minchum Bogus has recently returned from Yale to spend the summer vacation with his family.

Mr. and Mrs. Pullock and family of New York are spending the summer at the Vendome.

RECEIVER EDOFF EFFECTS SETTLEMENT

Judge Harris approved of a compromise this afternoon between Receiver Edoff of the California Bank of Oakland and Receiver Bailey, of the William Collins & Sons Bank of Ventura. In the settlement of a claim of \$171,000 held against the Ventura Institution by the Oakland Bank.

According to the compromise the assets of the California Bank will be increased by \$5000 worth of "unchanged" property in Glenn county, \$42,000 for property on Webster street in Oakland, and cash to the amount of \$43,250, which was formerly in the possession of the Ventura Bank. Receiver Edoff testified that the assets of the California Bank are \$448,284.56 against the liabilities of \$538,850.16. After taking away an amount of over \$47,000, which is the cost of liquidating the funds of the bank and the cost of maintaining the receivership, about \$400,000 will be left for the distribution to depositors. It is estimated that when the business is settled \$300,000 of the dollar will be paid to all depositors.

SEEKS HEALTH AT BYRON SPRINGS

Miss Edith Glick of this city is planning a trip to Byron Springs where she will recuperate from a serious illness.

She has traveled extensively and by her fascinating personality has made a circle of friends in the Eastern cities, where many of her relatives reside, also. Miss Glick is a talented musician and has frequently been heard at private recitals, where she received much praise.

The Day in Convention

Great Applause and Cheering at Showing of Bryan Banners

CONVENTION HALL, DENVER, 8.—With the assurance of another perfect day and the promise of an interesting fight over the report of the committee on credentials, which Colonel Guffey and his Pennsylvania friends were generally expected to contest, the convention crowd commenced early to move toward the convention hall. All progress toward the auditorium was, however, impeded by a street parade of the Tammany men from New York, who, headed by a band and a number of gaudily attired Indians, wound their way around the business section of the city. About 1000 men were in line, among them Leader Charles R. Murphy and other big men of Tammany. It was by far the largest parade which has so far occurred during the convention.

POLICE STOP CROWDS.
With Tammany out of the way, the crowd was once more able to proceed toward the convention hall and by 11:30 o'clock, a half hour previous to the time set for the opening of the chokes and the police were struggling with the eager crowd which was pressing toward the entrance.

While the day outside was very warm, the empty convention hall, when the doors were opened, was found to be fifteen or twenty degrees cooler than the street temperature.

BRYAN MEN HAPPY.
The Bryan men came tramping into the auditorium with cheerful faces and much laughter. The events of the night and early morning in the committee on credentials were much to their liking and they were more confident than ever of the ultimate success of their candidates. The Georgia men, anxious still, in the face of apparently overwhelming odds, were later in arriving as they had held another caucus early today for the purpose of establishing a rallying point for the fight against Bryan. When Georgia arrived it became known that the Georgia delegation was unable to reach a conclusion regarding the Democratic candidate for President whom they will support. Another caucus will be held during the day.

BELL WAS PROMPT.
Temporary Chairman Bell reached the rostrum just before noon.

Among the early arrivals was Representative Henry B. Clayton of Alabama, soon to be named by the organization committee as the permanent chairman of the convention. His eyes were covered by heavy blue glasses and he was somewhat less fashionably attired than was Temporary Chairman Bell, who spoke yesterday.

Colonel Guffey walked down the center aisle to his place in the Pennsylvania delegation at 12:10 and got a cheer from a number of delegates in his vicinity. He also was surrounded for some little time by a group of friends who apparently wanted to know what plan of action had been decided upon by the Pennsylvania delegation.

At 12:20 o'clock when the convention had not yet been called to order it was announced that the marching clubs would be permitted to march through the hall as soon as the opening prayer had been delivered.

It was just 12:26 when Chairman Bell began vigorously to rap for order and to direct that the congested aisles be cleared.

Chairman Bell, after pounding with his gavel for ten minutes, delivered a short address, demanding that order prevail in the convention. The chairman then introduced the Rev. Christian F. Reiser of Denver, the chaplain of the day, who delivered the prayer.

MEMORY OF JONES.

12:52 p. m.—Resolutions of condolence on the recent death of Senator Jones, former chairman of the national Democratic committee were presented and accepted.

OLD FRIEND IS TO NOMINATE BRYAN

Ignatius J. Dunn, Real Son of Nebraska, Who Is to Present Adopted Son to Denver Convention.

As the last of the parade passed out Chairman Bell again ordered that the aisle be cleared and when this was done the chairman said:

"The chair recognizes Senator Thomas M. Grady of New York, chairman of the committee on rules."

RULES OF 1904.

Senator Grady, mounting the platform, announced in a few words that he presented the report and for the adoption of which he moved. It proved that the convention shall be governed by the rules of the Democratic convention of 1904. The report was adopted unanimously by a viva voce vote.

"Now, gentlemen," said Mr. Bell, "it appears that the committees are not ready to report at this time, so the convention will dispose of some minor business. The chair recognizes W. H. Martin of Arkansas."

MEMORIAL RESOLUTION.

Martin presented on behalf of the national committee a resolution of regret and tribute to the late James K. Jones, former chairman of the committee.

After the resolution had been read, Martin spoke briefly of Senator Jones' capabilities and eminent service to the Democratic party.

By a rising vote the resolution un-

an, secretary of the New York delegation is wanted at the long distance telephone by Governor Hughes of New York.

When the laughter had subsided, the chairman said:

"This is no laughing matter. This business concerns the affairs of State, and it is an indication that Democrats are already beginning to get together."

MICHIGAN'S BIBLE.

"The Michigan delegation has sent its Bible," announced Chairman Bell, amid another outburst of laughter. "And they would be very much gratified," he added, "if it is returned."

Ohio James of Kentucky was recognized to move that a recess be taken until 8 o'clock p. m.

Cries of "no" from all over the hall, the galleries joining in the call of many of the delegates.

When the motion was put there were loud and about equal choruses, first of "aye" and then of "no."

GALLERIES VOTE.

"The chair is in doubt," said Mr. Bell, "but it is his opinion that the delegates voted aye and the galleries no. I will put the motion again."

"This time the galleries voted unanimously and the shout of 'no' overwhelmed the ayes."

BRYAN BANNER PRODUCED.

A Bryan banner, which had been working in the rear of the hall, was rushed to the stage and waved about the heads of the chairman and speaker. The plans of the flagstaff caught one of the suspended eagles over the chairman's head and brought it crashing to the floor. It was quickly caught up, however, and held above Senator Gore's head.

BAND JOINS IN.

The band joined in the demonstration with lively music. Sergeant-at-Arms Martin, after he had thoroughly roused the senator's head with the eagle's tail, waved the great stuffed bird so close to the senator's nose that he must have started back had he been able to see what was going on within two inches of his face.

The applause was relaxing some when the band poured oil on the fire by starting up "Dixie" and instantly the same before. The young man with the Bryan banner held his place on the speaker's stand by the side of the senator, waving the banner to and fro.

SENATOR GORE SITS DOWN.

Senator Gore, who had caused the terrible outburst, waited for a time before he rose to leave, and then, turning, seated himself against the railing of the platform waiting for the uproar to subside.

GEORGIA KEEPS SILENT.

Georgia's delegation, in the midst of the cheering crowd, was conspicuous for its absolute silence.

When the demonstration had proceeded for some fifteen minutes a delegate of Iowa caught up the standard of that State and led a march to the stage, where there was a grouping of the States.

RUSH TO THE PLATFORM.

It was a wild rush to the platform in which there was great confusion. Delegates other than those carrying on the heavy standard joined in the singing crowd, invading the space set aside for working newspaper men and seriously interfering with their labors.

The only States' standards that finally were left in their places were Georgia,

Committees Are All Late

Necessitated Putting Day Session Over Until 8 O'clock Tonight

New York, Delaware, Minnesota, Connecticut, Maryland and New Jersey.

STATE STANDARDS.

When the enthusiasm was at its height the group of State standards around and upon the platform included Rhode Island, North Carolina, South Dakota, West Virginia, Iowa, Oregon, Kansas, Virginia, Montana, Texas, Pennsylvania, Oklahoma, Arkansas, South Carolina, Washington, New Hampshire, North Dakota, Louisiana, North Carolina, Florida, Wisconsin, California.

PARADE AROUND HALL.

After ten minutes of yelling the perspiring, scrambling delegates, with their State standards, left the platform and started on a parade around the hall. Back and forth in the aisles in front of the press seats excited shouting Bryan men carried their standards, but the cheers were by this time beginning to decrease in volume and few of the blue markers were returned to their places on the floor of the hall.

CALIFORNIA'S BANNER.

California's Bryan banner, heavy with gold tassels and fringe, was carried to the stage while the cheering continued unabated and cries of "whoop" came from the delegates in the front row.

DEMOGRAPHIC CONGRESSMEN.

Governor Swanson of Virginia presented his plank demanding reform in the House of Representatives. He made a ringing speech in which he denounced the methods at present prevailing in the House. He said that no one could accomplish anything without the consent of the speaker. This, he declared, was nothing less than anarchy and he demanded a change. The speech was applauded by the committee.

William T. Frequenton of Washington, D. C., secretary of the National Negro Political League, which, he said, contains 600,000 voters, was given a special hearing, during which he assured the committee that the party would have the support of the negroes providing they could receive assurances of fairness. He told the committee frankly that if the Democratic party should prove successful by the aid of the negro vote, the negroes would expect a portion of the "spoils."

NO WORSE TREATMENT.

"We must know," he said, "that at any time you will not treat us any worse than the Republicans do."

He was assured by members of the committee that under Democratic rules negroes would be treated like all other citizens. Mr. Frequenton did not present any plank on the negro vote. He said that Mr. Bryan had been called on by a committee of negroes who had been assured that he disapproved of the "summers and wholesale dismissal of negro troops without hearing."

NEWLANDS SPEAKS.

Senator Newlands of Nevada spoke for half an hour in support of a proposition by himself to use both the Bryan and the New York platforms as a basis for the proceedings of the committee. Incidentally he took the position against reciprocity.

By 11 o'clock the committee had completed its preliminaries and settled down to work in real earnest. It was decided at that time to take up the plank of the platform section. Judge Parker spoke in support of the proposition to adopt the preamble of the New York delegation.

"Gentlemen," said the chairman, brandishing his gavel, "gentlemen, come to order. The chair is convinced that enough delegates have voted so to retain the convention in its seats for a few moments longer."

GALLERIES APPROVE.

A cheer of approval came down from the galleries as the speaker, who rose from the convention floor, Grant confusion followed, hundreds of voices calling for various speakers, the name of Senator Parker being the loudest. The speaker shouted repeatedly. The convention settled down to await the next event, but there was none for some minutes. The band attempted to play, but was practically drowned by the uproar. The chairman kept up his automatic sentence, "Gentlemen, come to order, and kept it up after the convention had been adjourned."

"The chair will now recognize Mr. Jefferson of Washington," said Chairman Bell, when a semblance of order had been restored.

SUES FOR \$95,000 FOR ALLEGED TIMBER SALE

Plaintiff Claims He Was Frozen Out by Defendants.

De Witt Clinton Moore brought suit today in the Superior Court against George E. Tuman, Mrs. Daisy Tuman, W. E. Lake and W. E. Erick for \$95,000, claiming an article from a timber sale of acres of timber land in Mendocino and Humboldt counties.

The complaint states that Moore and the defendants, with the exception of Erick, entered into a partnership in February, 1927 to sell 10,000 acres of land in the Hardy Creek tract in Mendocino county and the Big Lakoon Timber tract, comprising 22,000 acres, containing 5,000,000 feet of lumber, the property of C. A. Hooper.

Tuman was said to have conspired, with Lake's consent, to freeze Moore out of the deal, and accordingly engaged W. E. Erick to act as agent for the defendants in the transaction, but is charged with snatching in the profits. Lake is named as a defendant as he refused to join Moore in the suit.

The two properties were said to have been sold to Erick as Tuman and Lake's agent to J. E. Wheeler, an eastern capitalist, for a total of \$4,000,000. Erick was said to be a professional timber cruiser representing Wheeler. Lake is a land attorney living at 939 Linden street.

Moore asked a third of the commission and will call for an accounting of the affairs of the alleged partnership.

WOODEN SIDEWALKS AROUSE INDIGNATION

The North Oakland Improvement Club today, in a letter to the Board of Public Works, drew attention to the deplorable condition of the wooden sidewalks in front of 5515 to 5549 San Pablo avenue, also objecting to relaying of a wooden sidewalk at 5535 as was done June 25 last, protesting against the use of sidewalks at 5545 to 5549 San Pablo avenue, for displaying merchandise, storing unsightly boxes, lumber and other obstructions. The Chief of Police was instructed to investigate and report concerning the matter.

DEFEAT OF GUFFEY MEANS A BITTER FIGHT TO THE END

BIG FIGHT WILL BE MADE BY GUFFEY ON FLOOR

JUDGE GRAY STANDS PAT

BRYAN OFFERS SUGGESTION FOR DEMOCRATS' PLATFORM

Defeated Pennsylvanian Thoroughly Aroused and Opposition to Bryan Will Focus on His Case.

DENVER, July 8.—The supreme fight of today raged about the contest over the Pennsylvania delegation and the disqualification of Colonel James M. Guffey of Pittsburgh, for years the leader of the Pennsylvania Democracy. Intense interest has been aroused over the Pennsylvania fight, which culminated at 10 o'clock this morning when the element friendly to Mr. Bryan secured a complete victory before the committee on credentials.

FIGHT COMING.

This was but the prelude to a contest of intense bitterness on the floor of the convention today, as Colonel Guffey and his lieutenants immediately announced their determination to fight to the last ditch. It was not alone a personal contest, but one to some extent involving the Presidential nomination itself, for if Guffey should be finally and decisively authorized before the convention, then it meant that the one rallying point of the anti-Bryan forces had gone to pieces, whereas a Guffey fight on the floor of the convention meant the first "show down" of a roll call between the two contending elements—Bryan and anti-Bryan. Here then was to be the first argument which might force New York into the open and compel other wavering delegations to show their colors.

GUFFEY STUNNED.

Colonel Guffey was fairly stunned when word was brought to him of the action of the committee. "Can it be possible," he said, "that this disqualification of men representing the sovereign State of Pennsylvania, men holding certificates under the great seal of the commonwealth, has deliberately taken place?"

The report of what had been done was told before Colonel Guffey and John M. Gorman, former Democratic State chairman of Pennsylvania and the Pennsylvania member of the credentials committee. All eyes were turned to the door of the committee room, expecting a place owing to the pending contest, but always on guard, without food or relief, through the early morning hours until the final action was taken.

STATUS OF CASE.

The summary of the situation to Colonel Guffey was the following: "Eight of our Pennsylvania delegates have been unseated and eight contestants have put in their places. Prior to this action the Pennsylvania delegation stood 24 for Guffey and 36 for Bryan. But taking of the eight Philadelphia delegates and adding the eight contestants

Takes No Interest in Convention, Makes No Declaration and Attends Quietly to His Home Affairs.

WILMINGTON, Del., July 8.—Judge George Gray, unmoved by the efforts of his friends at Denver to have him nominated for President or of Bryan's friends to have him nominated for Vice-President, is quietly attending to official business at his office in the Federal building today. The preparation of judicial opinions in several pending cases engaged his attention and he will be busy all day.

Judge Gray is not in communication with Denver. He is receiving no telegrams from that city nor is he sending any. He has made no public declaration since his message to the Associated Press last week in relation to the Vice-Presidency and he said that he "would under no circumstances accept such a nomination if it should be made."

WRECK BRINGS SECOND GRIEF

Father of Bereaved Wife Had Died But a Week Previous to Fatal Collision.

A pathetic incident is connected with the death of Solomon Loeb, who was killed in the train wreck on Saturday night. Loeb was returning from Santa Cruz after making arrangements to take his wife there for a visit. Mrs. Loeb was completely prostrated over the death of her father, which had occurred just a week before. Her husband thought that a change of scene would take her mind from her grief, and help her to forget her trouble. Mrs. Loeb had been very fond of her father, and his death had come as a great shock.

After making all preparations Loeb was returning home when the fatal accident occurred which ended his life, and left the bereaved wife to stand under another terrible shock alone.

ANTI-INJUNCTION PLANK CAUSE OF PROTEST

SAN FRANCISCO, July 8.—A meeting of the executive committee of the Democratic State Central Committee, held yesterday afternoon at the residence of Judge Marcus A. Johnson, telegraphed to the committee on platform of the Democratic national convention, protesting against the inclusion of the anti-injunction plank in the national platform. The telegram followed:

"Hon. J. M. Haskell, Esq., chairman of committee on platform, Democratic convention: If newspaper reports are true, Isador Dockweiler, California member of platform committee, is not representing sentiment of State or anti-injunction plank. State convention adopted strong anti-injunction plank. State central committee instructed delegates to national convention to have said plank incorporated in national platform. JUDGE GRAY, WHO IS STILL MENTIONED AS CANDIDATE AGAINST BRYAN—THE HOPE OF THE OPPOSITION.

BRYAN MEN ARE ALL FAVORED BY CREDENTIALS BODY

Guffey Is Beaten, Johnson Is Seated and McCarren Is Doomed

DENVER, July 7.—The committee on credentials of the National Democratic convention concluded its labors shortly after 10 o'clock today, after having been in continuous session since 5 o'clock yesterday afternoon. No attempt was made to restrict the time for the presentation of evidence in the various contests, the proceedings in which were all conducted with open doors. The Idaho, Ohio and Pennsylvania cases provoked much bitterness from the opposing sides. Colonel James M. Guffey of Pennsylvania went down to defeat before the committee in all his contested cases, the contestants all being seated by a vote of 27 to 15.

DUBOIS WON.

In the Idaho case the Mormon faction were put to rout, the committee deciding in favor of the Dubois faction, who were the seated delegates by a vote of 26 to 20.

The Nineteenth Ohio district again was given to Tom L. Johnson of Cleveland, who appeared in the committee room early this morning and made a strong plea that the action of the National Committee be sustained. The Ninth Ohio district Johnson delegates were allowed to retain their seats.

The committee made work of the New York, Illinois and District of Columbia contests, unanimously sustaining the action of the National Committee in each case.

OKLAHOMA VICTORY.

The fight of Oklahoma for eighteen delegates instead of fourteen resulted in a victory for the new State. The claim of Oklahoma was based on the allegation that there had been an incorrect apportionment of the districts, and the committee accepted that view.

At 8:45 a. m. the committee had finished with the hearing of the Pennsylvania and Ohio contests. Tom L. Johnson of Cleveland appeared before the committee during the hearing of the nineteenth Ohio contest and made an argument of thirty minutes duration.

The committee next commenced the hearing of the Oklahoma contest which related to the claim of that state to eighteen instead of fourteen delegates in the convention.

STORY OF THE CONTEST.

At the conclusion of the arguments in the Oklahoma case the committee commenced the consideration of the various cases which had been presented to it. It was announced that the action of the National Committee be sustained. The contests and in the contest of the 13th Ohio district was sustained. This destroyed the last hope of the McCarren faction to secure seats in the convention and in the Ohio case the result was a victory for Tom Johnson and his friends.

EX-PRISONER IN TROUBLE AGAIN

Man Just Out of Prison Alleged to Have Passed Fictitious Check.

Albert Hysell, an ex-prisoner, is under arrest at the city prison for the alleged passing of a fictitious check of \$50 upon Frank De Laney of 416 San Pablo avenue.

Hysell was only released from serving a six months' term in the city prison a few days ago and was taken into custody again yesterday on De Laney's complaint. The check was drawn on the National Bank of San Diego, and was payable to Hysell. Hysell had written a letter to himself, saying that the check would be found indorsed and signed by name of Rose. This he showed to De Laney who the latter was suspicious and only gave \$2 on it. He afterward found it to be bogus. Hysell is being held in custody until it is decided what charge to bring against him.

Anti-Injunction Plank and General "Roast" on G. O. P. Favored

DENVER, July 8.—At 1 p. m. today the sub-committee of the committee on resolutions of the Democratic National Convention, which from early last evening has been wrestling with the platform, had passed finally upon only one plank—that relating to publicity of campaign contributions. It was believed at this hour that the sub-committee would probably not be able to report to the full committee before 10 o'clock tonight. The full committee is under adjournment, taken early this morning, to meet at 5 p. m. to hear the report of the sub-committee.

When the hour of 1 p. m. was reached it was decided to refer to sub-committee of the sub-committee various subjects for separate consideration.

PARKER ON COMMITTEE.

The injunction question, together with kindred labor subjects, was placed in the hands of George Fred Williams of Massachusetts, ex-Judge Parker of New York and Mr. Sullivan of Iowa.

The subject of the tariff was referred to Messrs. Pettigrew of North Dakota, Brown of Nebraska and Alschuler of Illinois. Senator Newlands of Nevada was placed at the head of a sub-committee to formulate a plank relative to the conservation of the natural resources of the country.

DENVER, Colo., July 8.—William Bryan's views as to what the Democratic national platform should contain are fully before the sub-committee charged by the convention with the work of drafting that document. Governor Haskell of Oklahoma, chairman of the resolutions committee and of the sub-committee, spent more than an hour during the early hours of this morning, reading to the sixteen members who constitute the sub-committee what Bryan had written in the form of planks, and what he had telegraphed to the Governor as suggestions for planks, the particular phraseology of which is left to the committee should it be deemed wise to incorporate the suggestions.

ANTI-INJUNCTION PLANKS.

Bryan's views on the injunction plank as thus transmitted are that the plank should begin with the statement that the party resents any attempted restriction upon the judiciary of the country, that not only are courts themselves created by law, but their jurisdiction and authority are defined by law, as well as their rules of procedure. The position of the party on this subject in the platform of 1896, 1900 and 1904 is to be endorsed; the further provision made that in contempt cases the trial is to be before any judge other than the one issuing the writ and, most important, the plank is to declare for the re-appointment of the Federal judges, requiring notice to be given before such preliminary injunctions shall issue, precisely as it existed prior to 1874.

TO LIMIT INJUNCTION.

Bryan made a subsequent suggestion for this plank to the effect that it might be well to provide that no injunction or restraining order shall remain in force for a period longer than three days, and that the hearing on such order shall be before two judges.

Bryan also believes an expression should be made to the effect that the courts of the United States should not have the power to suspend the rights of the State; that the right of appeal in such cases should lie.

In his currency plank suggestion Bryan asserts that treasury funds were used as an emergency aid to force through congress a bill which has failed to give protection to the fifteen million depositors of the country. The belief is expressed that the needs of commerce require an emergency currency; that such currency should be issued and controlled by the Federal government and loaned to national and State banks, under proper guarantee.

POSTAL SAVINGS BANKS.

"We favor the postal savings bank in the guarantee that cannot be purchased by the liquidation of the proposed plan, and Bryan made it clear to the committee that this qualifying language should be used in the endorsement of the postal savings bank proposition.

Another plank which Bryan has suggested in conference to the sub-committee, but concerning which he expresses some doubt as to the wisdom of its promulgation, is headed "The Misuse of Patronage." It condemns "a violation of the spirit of our institutions the action of the chief executive to secure the nomination of one of his cabinet officers."

The plank continues: "To force a succession in the Presidency is scarcely less repugnant than life tenure in that office, and tends to the establishment of a dynasty."

PRIVATE MONOPOLY.

The plank concludes with the statement that the Democratic party stands for the right of the people freely to select their officials; that the Democratic party stands for Democracy, while the Republican party is the party of private monopoly.

On the tariff question, the suggestion is that the position of the party be for revision on the basis of tariff for only sufficient revenues to support the government, levied with special attention to the necessities of life, impartial as to all sections of the country and so as not to afford monopolistic protection to any industry. The attitude of the Democrats in Congress is to be endorsed with reference to the news print paper question.

ADEQUATE NAVY.

On the subject of the navy, Bryan cautions the committee to be careful not to endorse a "large navy." An adequate navy, he says, "is as far as we can go." He has no objection to a plank endorsing State militias, but prefers it to be in the language of Thomas Jefferson on that subject: "A

Mrs. Sanford avers that people in the Contra Costa county jail say that Sanford has introduced another woman as his wife. They lived in Sacramento at one time.

MRS. BRIDGEMAN GETS AN AWARD OF \$4,000

A jury in Judge Harris' court this afternoon awarded Hannah Bridgeman a verdict of \$4,000 for the loss of her Western Pacific right of way through the property occupied by a planing mill and a lath and shingle mill west of corner of Third and Filbert streets.

Mrs. Bridgeman asked the railroad company to pay her \$4,000, which she refused to do and instituted condemnation proceedings. The jury deliberated about twenty minutes, when they returned the verdict.

DISTILLERS FAIL TO SECURE INJUNCTION

CINCINNATI, July 8.—The suit of the distillers against the new branding and marking bills met with another defeat late yesterday when United States Circuit Judge Burton declined to grant a restraining order against the enforcement of the new law on branding and marking and under which what are known as "spirits" will be marked "alc-hol." Judge Bates, after hearing arguments on June 5, denied the temporary injunction prayed for and dissolved the temporary restraining order already granted.

The Doings at Denver.

Important news from Denver, at least to Californians, relates to the activities of Theodore Bell of the Lincoln-Roosevelt League. We left him yesterday racing madly on a handcar for Denver, having gone on to Lincoln (Nebraska) to confer with Mr. Bryan, and a flood having come up and shut off the way back. He seems to have made it on the handcar, for the speech which he was scheduled to deliver at the opening of the convention yesterday was duly emitted and telegraphed out.

That Mr. Bell has with him the wireless end of the Lincoln-Roosevelt League is manifest from the way the San Francisco Call heads up his effort. "Speech Distinct Triumph for Bell and Credit to California Democracy," "Flouted by Own Delegation Temporary Chairman Wins Plaudits of National Convention"—these are the scare lines that top the forensic stunt of the grand young man from California. Appearing in a newspaper that professes to be Republican, this shows line consideration for the enemy, or at least a warm personal interest in its spokesman, as he arraigns the Republican party.

Mr. Bell's speech, from a merely forensic point of view, doesn't read so very bad barring a sophomoric tendency that seems to inhere in callow effort generally and a disposition to glitter in generalities whenever he approaches vital questions. Having just returned from Lincoln and a conference with the Great Dominator, it was supposed that he would present the essence of the sovereign intent. But he ducked and dodged. However, the Call carries out the idea all right. Even if Bell has been turned down by the California Democracy, his speech made a great hit with the Lincoln-Roosevelt League, and that is what seems to be desired here in California by the enemies of the Republican party, rather than fiddling that is bound to be futile at Denver.

A disquieting piece of news that appears in one of the morning papers is that detailing the discovery by one of the California delegates that 119 quarts of California champagne disappeared in some other than the regular way on the trip from the mole of this city to the convention city. It seems to be regarded as one of the initial calamities of the campaign. At least, the long dispatch gives some such idea. The unlucky Southern Pacific comes in for aspersions in this connection. A resolution had been passed thanking the company for the way in which it had transported the delegates. This, besides being a terrible slap at Bell, is regarded as premature since the loss of the wine was discovered. "The railroad" has not proved that it did not unlawfully get away with the fizz. Here we may have a new issue, one with which Mr. Bell can ring the welkin when he gets home. The things done and undone that cannot be traced to "the railroad" by Mr. Bell, with the assistance of the Call, have not yet been thought of.

At Chicago there were references to and pictures of a "roller" that was represented to run over men and measures that got in the way and flatten them out. The roller at Denver puts any that may have operated at Chicago way in the shade. This latest one is a mighty remorseless juggernaut that grinds everything out of shape, whether it is in the way or not. It goes out in by-paths and makes pancakes of good Democrats, just for the sake of doing it. One of the dispatches is to the effect that Bryan has forbidden even the naming of Governor Johnson as a Vice Presidential candidate, and very high-handed measures were taken yesterday to defeat the wish of the majority of the Pennsylvania delegation as to committee men and other matters, to get even with National Committeeman Guffey.

Mr. Bryan's roller flattens so much flatter and grinds so much finer that all other rollers are by comparison mere feather dusters.

Terrible Heat in the East.

We who dwell in the salubrious climate of Oakland are not likely to understand to the full the miseries of those living in the larger Eastern cities during the heated term. Even those of us who may have had experience with the Eastern climate, unless it has been very recent, will not appreciate present conditions. For the modern skyscraper has been so multiplied in the greater business centers that new conditions have been created that vastly increase the discomfort of all who have to remain in town during heated terms.

The tall buildings in New York, for instance, furnish large areas for the burning sun to heat up during the day. The circulation of air is shut away from sweltering humanity at the bottom of the slits between these structures that used to be real streets. On the principle of heating a baker's oven, these towering masses of metal absorb heat from the sun during the day and retain it through the hot night. Life in tenements, on its own account most torturing, is made still less bearable by this storage of heat in the nearby business section; while tenants of offices and those engaged in larger commercial occupations and industries must find it all but unbearable, unless they become injured, as do stokers in steamships.

When we hear Californians just returned from the East tell of the terrific heat we generally conclude that they have gauged it by comparison. But the facts are that modern building construction in cities has greatly accentuated a summer climate that was originally insalubrious.

Skyscrapers may have far-reaching effect on urban life in those latitudes where the climate is so trying. But in the region about the bay of San Francisco they could never produce such discomfort. The summer winds a ways prevail here, and the cool nights dispel whatever heat may have accumulated through the day.

Ambitious Harbor Plans.

The harbor plans that have been introduced in the City Council, and diagrams of which appeared in THE TRIBUNE of yesterday, are most comprehensive. They contemplate very extensive dredging and ship piers between the Key Route and Southern Pacific moles, and again between the Southern Pacific and Western Pacific moles, besides slips at Broadway and adjacent streets and at the entrance to Lake Merritt.

The start in harbor improvement has been long delayed, and is well begun now, even if nothing is immediately done more than the formulation of plans. The fact that the plans that have been proposed contemplate an outlay of twenty-five millions is not a bar. Such mighty undertakings are bound to cost money. In the nature of things this sum must be provided in installments. If a comprehensive engineering plan is settled upon, and then a certain and reasonable financial scheme devised to furnish the wherewithal, the providing of Oakland with harbor facilities that will enable her to take higher rank as a commercial city will in good time be realized.

The desirability of such a consummation is more keenly felt when it is remembered what commercial advantage this city might have realized within the past two years had she possessed ample shipping facilities of her own.

Although Mr. Bryan has expressed a preference for an Eastern man for the Democratic vice presidential nomination, it is known that he regards Scandinavia as entirely too far East.

This week the government called upon the national banks to pay forty-five million dollars into the treasury by July 15. It will be seen, therefore, that being a national banker is not all money and not all fun.

SENATOR PERKINS TELLS ABOUT THE TARIFF

Answers Some Questions Put by John Gamble and Puts Things in Their Right Light.

(From Hayward Journal)
In a private letter to Senator Perkins I said, half in jest, that I wished he would give us cheaper sugar; that it seemed unfair of our stevedores to charge our shipbuilders \$55 a ton for plates which they sell to Englishmen for \$35; and that it was hardly a "square deal" to make our railroads pay \$28 a ton for steel rails while we sell the same rails to competing roads in Canada for \$17. I did not expect that the Senator would notice this remark; but he did. I beg to ask attention to his own actual policy of exporting flour at a loss rather than throw his men out of work. These views must be of so keen interest to Senator Perkins' constituents that I need not apologize for publishing them. I may say that he is in error in supposing me in favor of free trade. Of course we must have revenue.

JOHN GAMBLE.
SENATOR'S REPLY.

"I am sorry to note that I am not in accord with your political views, and that you hold to the doctrine of a good many college men who are students of political economy; that free trade is a panacea for all our national ills. I note one of your specific complaints is that you are not allowed to buy sugar in California for the same price at which it can be purchased in Europe. Perhaps this is as good an illustration as any I can give to show you that while theoretically you may be right, practically the application of your theory would be detrimental to the interests of the people of California. For instance your neighbors on the farm receive for their sugar beets \$4.50 to \$5.50 per ton. These beets are manufactured into sugar and sold at a price that enables the manufacturer to pay about three times the wages to his employees that those received for the same class of work in Germany, while the farmer receives double the price for his beets, which enables him to support his family as becomes an American citizen, contribute to his church, partake of the social amenities of life, and have the advantage of high schools like the one over which you so ably preside at Hayward.

FARMER'S BOYS.
"The farmer's boys are all eligible

to the highest office in the land, made so by the dignity and honor of labor, which is fully compensated, while, if free trade prevailed, we would be divided into classes and be obliged to compete with the servile labor of China and Malay and coolie labor of Java, Sumatra and the East Indies. It seems to me that the same argument will apply to the iron mongers whom you say are charging \$55 a ton for plates which they sell to the Armstrongs in England for \$35 per ton. Ninety-five per cent of every dollar of the \$55 per ton plates produced in the United States is expended for labor, being equally distributed between the miner who digs the iron ore from the earth to the workman who runs from the furnace the molten steel to make the ingot. If the surplus is sold for less price in foreign countries than it costs to produce the article in our country, this is done for the purpose of continuing the laborers at their work; otherwise, they would be idle a part of the time.

OWNED FLOUR MILL.

"I remember some years ago I owned a flour mill which produced several thousand barrels of flour a day. This was more than the local consumption required and I had to ship my surplus stock to Europe or China for a market. I was frequently obliged to sell it at a loss rather than to close down my mill, throwing hundreds of workmen out of employment, and necessitating the reorganization of the entire mill force before work could be resumed.

THEORY AND PRACTICE.

"I am sure you will agree with me that there is a great deal of difference between theory and practice. This was forcibly impressed upon me when a boy, studying navigation. I remember reading a book called Blunt's Navigator with instructions for cruising on the Atlantic coast. Later I had occasion to follow the instructions while sailing on board of a ship plying out of New Orleans, and I found that the author of the book had made no provision for changes caused by local disturbances, by winds, or sea currents, and the result was, if I had literally followed the instructions of the author, my vessel would have been on the Florida reefs."

FINDS \$1000 GEM IN 11-CENT PIECE OF CHEESE

Ring Set With Three Diamonds Discovered in Grocery Store Purchase.

NEW YORK, July 5.—Fritz Weber, a grocer in Bluefield, N. J., sold 11 cents worth of cheese to a woman customer yesterday. A few hours later the woman returned to the store and asked Mr. Weber if he had sold her a diamond ring. He replied that he had not, for he never owned one.

The woman then produced a ring set with three glistening stones which she said she had found imbedded in the cheese he had sold her. She was happy when told that the grocer did not own her find, which she said would enable her to take a needed vacation.

It is believed the ring, which is valued at \$1000, got into the cheese at the factory. Weber could not be induced to give the name of his lucky woman customer.

ODD CLERICAL ERROR IN RELEASE ORDER

By an odd little clerical error in police court proceedings this morning, Everett J. Brown—presumably District Attorney of Alameda county—was ordered released from the city prison on \$5,000 bonds.

It happened in the case against Everett J. Barry, the engineer who is charged with manslaughter because of the railroad wreck of Saturday night. Barry had applied for a release on bonds, and following is the order issued by Judge Samuels:

"The people of the State of California vs. Everett J. Barry, defendant. Bail having been allowed in the sum of \$5,000, and proper undertaking having been executed, it is hereby ordered that said Everett J. Brown be discharged from custody."

The mistake was made by Judge Samuels' clerk, who in making up the order had the District Attorney in mind and the similarity of the first names of the two men was responsible for the mistake. A good police court official has had a good laugh at Judge Samuels' expense, but it is no wise interfered with Barry's securing his freedom.

An appeal was made to the board to compel the company to improve conditions.

On recommendation of City Surveyor Turner a communication will be sent to the water company asking for an explanation, and the chief of the department was instructed to make an investigation and report to the board at the next meeting.

MOTHER STILL THINKS MISSING SON ALIVE

Maintaining a rooming-house to take out an existence which the world owes her but which Fate seems determined to take from her, Mrs. Mary Hatt is waiting patiently for the return of her missing son, Sherman Cannell, who disappeared from his Oakland home in May, 1900, and from whom the anxious mother has heard but once since.

Sherman Cannell is 21 years old, has brown hair and blue eyes. He is the youngest child of Mrs. Hatt, and his absence cannot be explained by the mother. When last heard from the boy was in Sacramento, but that was nearly two years ago, and since then the mother has been living in the hope that her son would surprise her by suddenly returning home.

"Sherman was known to a few of his boy chums as 'Tom,'" said Mrs. Hatt. "He left here in company with a friend and went to Sacramento. He returned home for a few minutes a month later and went away again. Shortly afterward his brother, George, shot himself near Hayward. I do not know that Sherman ever learned of his brother's suicide, and it seems strange that he does not write. The letters that his sister and myself have written have been returned. But even at that I believe he is alive and well."

CHARGES VAN COMPANY WITH BLOCKING WALK

At today's meeting of the Board of Public Works a communication was received from the San Pablo Avenue Justice Improvement Club charging that the deliberate carelessness of the employees of the Lyon Van and Storage Co., the sidewalk on the south side of Thirty-second street between Market and West streets, is blocked for hours, so that pedestrians are compelled to walk out in the street in order to get around the company's horses and wagons, also that the sidewalk needs repairs.

BY FASTING FOR 75 DAYS FAT WOMAN REDUCES WEIGHT

SAN BERNARDINO, July 8.—Mrs. J. F. Manning of Mecca, a small town on the desert, has just broken the world's record for fasting. Mrs. Manning, who weighed 300 pounds, undertook the task for the reduction of her weight. Today she took a handful of strawberries, the first food she has taken, aside from a sip now and then of tea or coffee, for seventy-five days.

She reduced her weight fifty-five pounds, and intends to keep on a light fresh fruit diet until she has reduced her weight to 100 pounds. This is very desirable, for the thermometer at this season of the year at Mecca hovers around the 120 degree mark.

This record is second to Dr. Fanner's. The doctor fasted for forty days and nights with no stimulant except water, but Mrs. Manning's record is twice the length of time with but a little tea and coffee.

Since her remarkable fast there are other fat people in the neighborhood who are entering upon long fasts.

FUREY SAYS HE IS NOT GOING AWAY

Former San Francisco Supervisor Is Cross-Examined in the Police Court.

(Special to The Tribune.)

SAN FRANCISCO, July 8.—This afternoon at 2:30 o'clock the cross-examination of Ex-Supervisor Furey of the old boodling board, was closed in Judge Cabanis' court in the preliminary examination of Abraham Ruef on the charge of bribing Furey in the Parkside franchise case.

Before closing the cross-examination Attorney Newburg for Ruef, compelled Furey to admit that he was not his purpose to leave San Francisco or the state of California. He also sought to make Furey state that he did not intend to sell it out.

Furey, however, said that he would dispose of his business if he could. Newburg then moved to strike out all of Furey's testimony, especially that which included a statement by "Big Chief" Gallagher, also a boodler, which included Ruef's name. The State Department today made the ground that Furey's testimony referring to Gallagher and Ruef was not admissible for the reason that under the law Gallagher was to be considered as an accomplice of the defendant if any crime had been committed. An argument followed in which Newburg contested the motion.

SAILOR SCALDED BY BROKEN PIPE

Escaping Steam Seriously Injures a Fireman on the Monitor Nevada.

NEW LONDON, Conn., July 8.—It has just become known here that through the explosion on Monday afternoon of a steam pipe on the monitor Nevada, attached to the naval training squadron now manueuvring in the sound near this city, three members of the crew were scalded, one seriously that he may die, while a panic on the vessel was only averted by the prompt action of the officers. Thomas J. Caudley, a fireman, was so severely scalded that the captain determined to place him in a hospital ashore. The injury to the stomach, it was said unofficially, is of comparatively little consequence. It is said that in no way was the accident traceable to carelessness.

"THE THIEF" IS WONDERFUL PLAY

Drama Remarkable for Strength and Many Surprises Unfolding of Plot Brings.

There are only seven characters in "The Thief," which Charles Frohman is presenting at the Macdonough Theater this week. The action takes place within about twelve hours; the union of place and incident are also observed.

The plot is as startling as ingenious and is developed with a skill that stamps young Henri Bernstein, its author, as one of the greatest masters of construction the theater has known. There is no dividing the denouement or the next situation in "The Thief." The oldest playmaker goes as far as any in this regard as the youngest. The spectator thinks the climax of an act has been reached, only to be rescued out of his complacency by another and more thrilling turn of the plot and resourceful mind of the playwright.

WONDERFUL POWER. No play which has been seen in the metropolis in many years has possessed the power of holding the spectator's interest so firmly fixed as has "The Thief." Charles Frohman has entrusted the leading role of Marie Voysin to Margaret Illington. Others in the cast are Bruce McRae, Edward R. Mason, Sidney Herbert, Leonard Ide, Cecil Owen and Isabel Richards.

"The Thief" will be presented at the Macdonough two more times, tonight and tomorrow night.

MAY ROBSON TO OPEN. May Robson, who will be seen at the Macdonough Theater July 19 to 25 inclusive, in "The Rejuvenation of Aunt Mary," by Anna Warner, is one of the few who in this day daren to be a character actress. To her character impersonations she brings a comprehension of the inner humor and the pictorial possibilities of phrase or line a telling reserve in pose and gesture, and an ease and fluency of quiet, unobtrusive delivery that are in the better spirit of a polished, experienced and original comedy.

L. S. Shio, under whose management Miss Robson is starring, has surrounded her with a strong supporting company.

HEART

\$5000 for Loss
Of Sweetheart

LANCASTER.—Miss Sue Harnley, of Penn township, says that an unkind remark made about her by Mrs. Lizzie Baymon, of the same neighborhood, resulted in the breaking of her engagement to marry.

False and slandering reports were circulated about her, Miss Harnley declares, and as Mrs. Baymon refused to retract, she has brought suit to recover \$5000.

CHURCH PEOPLE FIGHT
AGAINST WORLDLY
MUSIC

PHILADELPHIA.—Installation of a moving picture show and vaudeville in an adjacent building has aroused the indignation of the congregation of the Third Baptist Church, Broad and Ritner streets. Residents of the vicinity have split into factions, some siding with the church members and others with the proprietors of the vaudeville hall. The church people claim that the worldly music and gaiety in such close proximity interfere with the proper conducting of their devotions.

The amusement hall will be opened in a few days. A meeting of the board of deacons of the Third Baptist Church will be held at the home of Harry Glading, 2230 South Sixteenth street, to take steps to head off the show house if possible.

MISS TARBELL LIVES
PRACTICALLY ALONE

Miss Ida Tarbell, who wrote the famous "History of Standard Oil" and is now regarded as the most brilliant woman historian of modern days, is a woman of simple tastes and methodical habits. She lives practically alone, in order to follow her study and work in absolute seclusion, occupying a small apartment in New York during the winter and a quiet farm in Connecticut during the summer.

TO TEACH KINDNESS

Women in Columbus, Ohio, have been much interested in the work-horse trade in which the only thing that counted was the condition of the horses. The leading horse was Rob, 25 years old and nineteen years in service. The idea of the parade is to teach kindness and care for the working horse and opportunity to rest in old age.

Betsy Ross Really Made First
American Flag, Says Descendant

The chairman of the Philadelphia committee for marking historic places is authority for the statement that Betsy Ross never existed and did not make the first American flag.

The Betsy Ross house once contained a seamstress of that name, but, according to the Philadelphia committee, she would have been filled with about the same amount of patriotic zeal in sewing Old Glory as she would have found in darning a pair of socks.

Now come the descendants of Betsy Ross and have many things to say on the subject.

DEFENSE OF BETSY.
CHICAGO, July 8.—These middle-class iconoclasts in Philadelphia who are trying to show that Betsy Ross didn't make the original American flag and who are trying to stamp Betsy's house in Arch street in the sleepy city as a fake must have had burning ears yesterday, considering what a great-great-grand-nephew of Betsy's, resident in Chicago and Dr. B. J. Cigrand, national authority on heraldic Americans, had to say about them.

The Chicago defenders of the famous Betsy went deep into their archives as soon as they read the "astounding" story from Philadelphia and dug up family trees by the roots to prove that the school children's heroine really did just as the school books and histories say.

"So Betsy didn't make the flag, eh?" said Dr. Cigrand as he hurried about his office at 476 West North avenue, picking up rare books, designs for seals, benderies, dexters, argents, gules, unions, fields and a dozen other things calculated to make the non-heraldic person grab his hat and rush for the door. "Just you wait a minute and I'll show 'em."

"From between the pages of his 'History of American Emblems,' the fruit of fourteen years of painstaking research, the authority of American heraldry and colonial history drew forth a folded sheet of manuscript.

"Read that," he said, quietly, but triumphantly.

"It's a copy I made of bills paid to Betsy Ross by the United States Government for flagmaking. The originals from which I made the copy are yet lodged here now in the archives of the War Department at Washington, and in them is full refutation of the charge that Betsy Ross was a fake."

The manuscript copy of the bills read as follows:
COPY OF BILL PAID TO BETSY ROSS BY THE UNITED STATES.

The following entry relates to flags for Captain William Richards:
"State Navy Board, May 29, 1777.

"Present,
Joseph Marsh, William Bradford,
Paul Cox, Joseph Biewer.

"Aug. 20, 1777, State of Massachusetts Bay to Jos. Webb, Dr.
"To making a suit of colours, 44s.; thread, 12s.; painting pine trees, etc., 24s."

120 YARDS OF BRAID
IN MERRY WIDOW HAT

If the largest Merry Widow hat worn by a woman were ripped apart and the braid measured with a yard stick it

would take 120 measurements of the stick to come to the end of the braid. Thousands and thousands of yards of this braid, which is made by the peasant women of the mountainous countries of Europe and Asia, are shipped to America every year. It comes in its natural color and the manufacturers dye the straw in the leading shade of the moment. After this dyeing is done the braid is sent to the sewing-room, where by skilled workers it is fashioned into hats. They are then blocked and receive their first attempt at a correct shape and after they are glued and dried they are ready to be sent by the hundreds to wholesale houses, that sell them to the small milliners ready to be trimmed.

by government records respecting the great seal of the United States:
"The colors or livery of the poles are those used in the flag of the United States. White signifies purity, innocence; red, hardness and valor. The chief denotes Congress. Blue is the color of the American uniform, and this color signifies vigilance, perseverance and justice."

No whit behind Dr. Cigrand, who holds letters of approbation from three Presidents and five Secretaries of War, is Will Sidney Turner, 1655 Belmont avenue. His grandmother, Mrs. Susan McCord Turner, 88 years of age, and living in Frankfort, a part of Philadelphia, has written some recollections of her grandniece, Betsy Ross.

RELATIVE IS POSITIVE.

In the aged Philadelphia's written statement in the possession of Mr. Turner she says in part:

"Sarah Griscom, my grandmother, was the sister of Elizabeth Griscom, the 'Betsy Ross' of history. I am therefore the grandniece of Betsy Ross. I have vivid personal recollections of her as 'Aunt' Claypole (then pronounced Claypole). She was small of stature and was beautiful, even in her old age. She died in 1836.

WAS WIDOW ROSS.

"She was married three times. It was as the Widow Ross that she made the first flag. To her belongs the credit of suggesting the five-pointed star to place in the blue field instead of the six-pointed star, customarily displayed at that time. It is literally true that she cut a five-pointed star out of paper and showed it to the committee.

"Betsy's work on the first flag greatly pleased the committee, composed of General Washington, Colonel Ross and Robert Morris, and she was directed to purchase all the bunting available in the town. She accepted the contract and for many years our kinwoman was enabled to furnish flags to the government. Betsy worshipped in Christ Church. Her pew is marked."

IGNORANT ICONOCLASTS.

In discussing the matter, Dr. Cigrand said:

"It is doubtful if the committee of iconoclasts in Philadelphia know the significance of the colors of the flag. I know there have been many disputes about it, but here is the meaning, as substantiated

WILL COUNTESS AID
CANDIDATE DEBS?

It is reported that the Countess of Warwick will be one of a number of socialistic women who will "stump" the country for the socialist candidate, Eugene V. Debs. She is to be the attraction in the New York campaign principally. Lady Warwick has for a long time been interested in politics and she is also a worker in charitable enterprises in London. She belongs to the ultra-advanced women of the suffrage movement in England and has taken part in most of the political campaigns of that country for a number of years.

MRS. SAGE IN CHARGE

While Mrs. Russell Sage has trusted the management of her great inheritance to a committee, she frequently places her hand on the helm and proves that she is still strong and competent to discharge the duties of her position. MRS. FRANK GOULD

My exclusive rights, nearly a year ago, of the domestic trouble of Mr. and Mrs. Frank Gould, served the good purpose of bringing the young couple together for a better understanding of each other, says Town Topics. Now there has been another break, and Mrs. Gould has begun suit for divorce. Mrs. Kelly, the mother-in-law, undoubtedly caused much of the first trouble, at least, and as I said at the time Mr. Gould was obliged to go to the extreme of forbidding her his house.

When a Slim Woman
Is Weighed in Public

"For me to get weighed on a public weighing machine is as good as a vaudeville performance for the on-lookers," said the thin woman. "The minute I mount the scales and drop in my penny other people draw near and make bets with each other on my avoirdupois. Very few are good guessers. Most of them underestimate my weight. They are more disappointed over their lack of judgment than those who credited me with a few pounds too many."

"Gee!" says one man, "I didn't think she was that hefty."

"You can't always tell about these thin-looking folks," says another. "Sometimes they're pretty solid. I thought she'd pull the scales down a little further than that."

"To a person of shrinking disposition such comments are decidedly embarrassing; therefore I seldom try to ascertain my weight in public."

circles that Mrs. Frank has been a little indiscreet.

There was no excuse, for instance, to ignore her husband as she did at a luncheon at Sherry's one day where they happened to be in different parties at different tables. The young husband watched her closely in a manner that plainly indicated where were his thoughts, but each time she glanced in his direction she wore an unmistakable frown, and once when she started over to say something to her she deliberately turned her back upon him. She is such a pretty little thing and so apparently pleasant in every way, that this peevishness on her part was rather surprising.

Then she made another rash mistake in using a public place as Sherry's restaurant for a tryst. There she met a young bachelor who lives in Forty-fourth street and together they had more than one luncheon. Judging by their interest in each other the affair seemed rather intense, but it unquestionably never got beyond the flirtation stage. One explanation made to me of the matter was that, womanlike, she merely did it to annoy her husband, knowing perfectly well that he would hear all about it. Her latest public appearance was at the wedding of Miss Shonts and the Duc de Chaulnes, where she was among the last of the guests to leave the house. She is quite democratic and well-liked, and now that the season is beginning again at the Hot Springs, and her husband is already domiciled there, it is not beyond the range of possibility that they will make up their spat and have another little jaunt there as they did last spring.

He corroborated my statement and finally Mrs. Kelly herself, who in any event talks too much, disclosed in daily newspaper interviews the fact that she really was a disturbing factor in the Gould ménage. But Mrs. Kelly's shoulders are not broad enough to hold all the blame, and I have been informed through various

Social Church
Services for Automobile Parties

NEW YORK, July 3.—Social church services at which automobile parties and smokers will find accommodations will be inaugurated on Sunday in the Hyde Park Reformed Church, East Orange, N. J. While smokers will not be excluded, cigars will not be furnished.

The service will be held at 6:30 o'clock p. m. on the church lawn at Whittlessey avenue and Wilcox place. Camp chairs will be arranged on the lawn. The leaders of the meeting will stand on the church steps, and around them will be arranged a quartet and cornetists to lead the singing.

The pastor, the Rev. Frederick B. Pullan, says things have been arranged with a view to accommodating those who come in carriages or automobiles and hear what is said. The experiment will be tried during June.

Dr. Littenberger's attempting to hug her one time when she entered his office. "I pushed him away, and told him to hush himself," said the witness. "He asked me if I was still single, and said I was looking fine. I translated my business with him and got out."

MME. EAMES IS IN
DELICATE HEALTH

Mme. Emma Eames is said to be the most delicate of all the grand-opera singers and much of her time is spent in the preservation of her health. She follows a rigid system of diet, exercise and sleep and on the days when she is to sing at night she sees no one, speaks to no one and touches no solid food.

WOMAN IS SHUT OUT OF WORLD
FOR HALF A CENTURY

PARIS.—For fifty years No. 19, Boulevard Poussoniere, in Paris, a house of four stories, has been closely shuttered, and yet it has been continuously inhabited. Servants were seen to enter and leave the building, and today it was dressed in the black and silver trappings which usher France's citizens to their last resting place. Mme. de Provigny, its occupant for fifty years, was dead.

She was a woman of 70, and for the last half century she lived in that closed and shuttered house without a newspaper, without an open book, without a flower, and without a word from any living soul.

For fifty years Mme. de Provigny wore white satin. She wore it on her wedding day and always dressed in white to the end.

Fifty years ago M. de Provigny died. They had been married the same morning, and the young husband died of apoplexy an hour after the ceremony. When she recovered from the shock, if indeed, she can be said ever to have recovered from it, Mme. de Provigny had the house shut up, but she retained her servants on condition that they were never to confront her with a living being and never to speak to her again.

She did not know the trend of public events. Motor cars were unknown to her. She did not know whether France was a republic. She had never heard of the Dreyfus case, or of any national or international event.

She died some days ago, and in her will left her whole fortune to men and women aged over 60 years of good character. She left a large house in the country as a home for them, and \$2,000,000 for its support.

HEALTH SOCIETY

In New York the women have a health protective association and one of the things they are fighting is the tendency of children and grown people as well to deposit rubbish in the parks. At a meeting the other day the president of the association declared that there is no other city in the country in which rubbish is deposited in the parks as it is in New York and she wants signs in all the parks forbidding the scattering of bits of luncheon, paper and so on in any place except the receptacles for them. Women in other cities might follow the example of the women in New York and insist that children be required to pick up any rubbish they may make.

Police Inspectors, Millionaires,
Statesmen and Scotchmen, Seek the
Hand of Popular Comedienne

The personal attractions of Miss Truly Shattuck, formerly a school girl in San Francisco, the popular American comedienne who has made such a successful appearance at the London Coliseum, are such that she has had a marriage proposal every forty-eight hours during the past seven years. Among the aspirants for her hand are sixty-eight musical conductors, 145 stage-managers, eighteen police inspectors, fifty-four merchants, sixty sons of millionaires, seventeen Congressmen, fourteen senators, three judges, two Scotchmen, and a number of shop assistants and railroad officials. Miss Shattuck says she is wedded to her profession, and has kept a record of the marriage proposals merely to know to friends in after-life when accused of being an "old maid."

MISS DE WOLFE
RETIREES

Miss Elsie De Wolfe, for the past ten years known all over America as one of the most skillful portrayers of the American society woman on the stage, has definitely retired from the theatrical profession and has become a professional decorator and art connoisseur. She designed and furnished all the fittings of the fashionable new Colony Club for women in New York city.

TO SUPPORT HUSBANDS

Some one suggests a novel remedy for the competition of woman in trades that have always been sacred to men, says a writer. It is that whenever a woman is known to be making a success of her work some man should marry her, and nine times out of ten it would mean a position for another man. Unions might take the matter up and keep on hand a stock of eligible young men to shoo off the young women through the gate of matrimony.

WOMEN TAKE DEGREES

Nearly fifty women took degrees at New York University this year, and seated on the stage at commencement was Mrs. Russell Sage, who is such a good friend of women and all things in which they are interested. Helen Gray Cone was made master of letters, an unusual honorary degree for a woman to take.

Woman Said to Have Been Look Out for Thieves

FARMER SHOOT AT MEN STEALING HAYSTACK

Constables Think That They Have Long-Sought Marauders

That Mrs. Louis Johnson with her 12-month-old baby in her arms, was assisting her husband and Roscoe Wright last night in robbing the haystack of Road Master A. T. Newth in Pittsburg, who fired a volley of shot at the thieves in the charge of Constable W. C. Allen, who lodged the two men in the county jail early this morning. He states that in the arrest of Wright and Johnson he has the ringleaders of the gang of marauders who have been working Oakland's southern suburbs for the past year, stealing chickens, potatoes, vegetables, hay and everything movable that could be sold without creating suspicion.

VICTIM OF HAY THIEVES

Road Master Newth was the victim of a hay thief who was stolen from his place at Pittsburg.

Last night he saw a wagon drive up to his hay stacks. He took his shotgun and crawled around the house to where he could get a good look at the thief.

SHOT AT WRIGHT.

Wright was the act of loading a armful of hay when Newth blazed away at him with the shotgun. Wright jumped on the seat with Johnson, who was a few feet away and drove off. Mrs. Johnson and her baby had disappeared in the dark. Newth thought he wounded one of the men and telephoned to Constable Allen, who responded immediately and took up the trail. The moon light made the trail distinct as day and the officer soon discovered where one of the thieves was hiding.

FOUND IN BED

Allen went to the home of Frank Roberts, a painter in Pittsburg, where he

found Wright. The young man was in bed and declared that he had been in the house since 4 o'clock in the afternoon. A different story was brought to light when Allen threw back the coverings and saw that Wright was fully dressed. His trousers were covered with clay from the creek bank he fell down in escaping from the Newth place.

MADE A CONFESSION

Wright at first denied taking any part in the affair but later admitted that he was stealing hay. While taking his prisoner to the lock-up at Pittsburg, Allen saw Johnson hiding in the shadow of a telephone pole. He made no effort to escape when the officer started after him, but claimed that he was not a thief. He said he and Wright were getting a little feed for their horses and would not have loaded the wagon entirely.

Johnson denied that his wife was on the look-out, saying that his family was camping near the South place and Mrs. Johnson and her baby were merely returning to camp.

UNDER SUSPICION

Constables Allen and Carroll of Brooklyn township have been foiled at every turn of the game by clever petty thieves whose plunder would aggregate hundreds of dollars. Not until last night did anybody get a chance at capturing the men at work. The officers declare that neither Johnson nor Wright have any visible means of support and that they are no other than members of the gang of petty thieves.

A confession is expected and a more serious charge than petty larceny will be piled against them when other evidence is obtained.

HIGHWAYMAN GETS \$16 IN HOLD-UP

Unfortunate Victim Suffers Two Robberies Within the Last Few Days

C. Graves of 1927 South Sutter street, Stockton and temporarily staying with Oakland friends at 1014 Magnolia street was held up and robbed of \$16 by a long highwayman on Magnolia street near Tenth at 9 o'clock last evening.

Graves had alighted from an Eighth street car and was going north on Magnolia street to his residence. When nearing Tenth street the highwayman stepped out from the shadow of a tree and, presenting a revolver, commanded Graves to hold up his hands. Graves did as commanded and the robber searched him, taking only his purse containing the money.

Police Officer Caveny and Underwood responded to a call for the police but could find no trace of the robber except the empty purse which was left where the holdup occurred.

Graves was so badly frightened that it was impossible for him to give a description of the man except that he was masked and carried a revolver. He said that his house in Stockton had been burglarized a few days ago.

LANTERN SLIDES ADVERTISE TOWN

Effective Method of Publishing Oakland's Advantages Is Planned by Chamber

By means of lantern slides Secretary Edwin Stearns of the Chamber of Commerce intends to advertise Oakland in the East. The slides are works of art and were made by an Oakland artist.

Rev. Herbert F. Moulton of Bridgeport, Maine, who is on a lecture tour of the New England States, will be among the first to use the slides, which show all features of Oakland's waterfront parks, public buildings and residences.

Numerous communications have been received by property owners in the South, who have become interested in Oakland through the slides. Alameda county's horticultural resources, according to Ernest Verner of London, who visited the Chamber of Commerce, are more varied than that of the southern part of the State.

While he was there and he had not yet recovered from the scare he got at the time. The holdup of last night left him weak and helpless.

SOLDIERS FAIL TO FIND ARCHIBALD IN SEARCH

Two Searchers for Archibald Return Discouraged and Worn, Declaring Troops Did Not Give Promised Help.

BERKELEY, July 8.—Robert Pike, one of the party organized ten days ago in Berkeley for the purpose of searching for Kenneth Archibald, the young Berkeley man who disappeared in Kings River canyon, returned to his home at 1112 Euclid avenue this morning worn and discouraged after a week's vain quest for the missing man. Pike says all hope of ever finding Archibald alive has been given up by his friends.

Worth Ryder and Alvin Wilder, of Berkeley, who accompanied Archibald into the canyon, remain behind in the hope of finding some clue that will solve the mystery of the missing man's fate and are not expected in Berkeley for ten days yet.

BELIEVE HIM DROWNED

Pike believes Archibald fell into one of the high mountain lakes as he was wandering about in the darkness seeking the trail.

As human bodies rarely float in waters at these altitudes, he believes the tragic affair is closed.

Pike is bitter in what he declares was the flat refusal of the soldiers patrolling the Sierra forest to give any assistance in the search. Despite the declarations of General Funston in San Francisco that a troop of soldiers had been dispatched to the region where Archibald was lost, Pike says that neither soldiers nor forest rangers ever went within thirty miles of the spot and that when the rangers were called to they pleaded lack of details and refused to take action. He charged that this policy of indifference of soldiers and forest rangers of employees in the Sierras is heartless.

ISSUE STATEMENT

After leaving Kings River canyon Pike and Worth Ryder issued a statement in which they declared that they had been treated fairly by soldiers and rangers, which was made public upon Pike's arrival.

We have read many accounts of the hunt for Kenneth Archibald. I have read stories of soldiers patrolling the Sierra forest to give any assistance in the search. Despite the declarations of General Funston in San Francisco that a troop of soldiers had been dispatched to the region where Archibald was lost, Pike says that neither soldiers nor forest rangers ever went within thirty miles of the spot and that when the rangers were called to they pleaded lack of details and refused to take action. He charged that this policy of indifference of soldiers and forest rangers of employees in the Sierras is heartless.

NO HELP FROM SOLDIERS

General Funston told the friends of Archibald in San Francisco that he had ordered the soldiers from Sequoia National Park to join in the search. This order, Funston said, had been given to Captain Smith of the troops. It is but a few days ago that Pike and Ryder, who were with Archibald, returned to the park to find that no soldiers were there. Pike says that this was absolutely nothing to do but patrol a small portion of the park and that the search for Archibald was a range named Smith, who was employed to help but who knew nothing of the situation and was of no assistance.

This and the treatment we got from the forest rangers, all government officials, was absolutely a total defeat. We were turned out of the Sierra Nevada mountains. Even now we get developed lame excuses of having to report or having to be found at a certain place in a few days.

FALSE REPORTS

One report had the finding of Archibald's bones but not one thing he had left was ever found. It also had him unconscious in an Indian hut in the Sierras. But not a human being lives in that region nor is there an Indian about in the high mountains. All of the searching was done by private citizens and done at their own expense. The office of the law or the government showed up. The Sheriff of one county was reported to be on the hunt but he never came near us nor sent any of his men.

Not too much can be said of the splendid way in which the Kenawyer pioneers, residents of Kings Canyon, responded to the call for help. All their supplies and animals were put at our immediate disposal and everything in their power was done to help us. The region in which Archibald was lost is a rough, granite, high mountain country, snowbound and mostly above timber land. Every man who went in did so knowing that he must undergo terrible hardships, traveling always on foot, often with heavy packs, over high peaks and the long dizzy cliffs.

Following is a list of the men who went in on the search. They were: Worth Ryder, Alvin Wilder, Lawrence Eitz, Worth Ryder, all from Berkeley; Booth and Wadsworth, all from Oakland; Cecil Archibald, all from Los Angeles; Neil Robinson and Smith, all from Independence.

It is impossible to find a trace of Archibald in the granite and as bodies do not float in the high mountain lakes it is possible he may have been drowned. If he had not been drowned the wolves, which would have eaten the remains, leaving only the clothing. Not an

ENGLISH SEA-FIGHTERS ARE INVOLVED IN FIERCE QUARREL

ADMIRAL LORD CHARLES BERESFORD, WHOSE QUARREL WITH THE ADMIRALTY OVER THE NOTORIOUS SIGNAL INCIDENT OF 1907 HAS BECOME A PUBLIC SCANDAL.

Notorious Sequel Incident Is Cause of Rancor

LONDON, July 8.—The campaign now being waged by the newspapers against Admiral Lord Charles Beresford has reached a point where it seems inevitable that the government must interfere in some way to abate what is becoming a public scandal.

SIGNAL INCIDENT

It is difficult to arrive at the true facts in the case but ever since the notorious signal incident on October 21, 1907, strained relations have existed between Lord Beresford and Rear Admiral Sir Percy Scott.

BERESFORD IS ANGRY

Lord Beresford also has declined to continue his friendship with Sir John Fisher, first lord of the admiralty, owing to his disagreement with the admiralty. This feeling has been so open that Lord Beresford at one of the king's levees held recently deliberately cut Sir John Fisher.

In the presence of many naval and military officers.

DEMAND RESIGNATION

Several influential London newspapers openly clamored for the resignation or the removal of Lord Beresford from the command of the Channel fleet on the ground that he cannot agree either with his superior or with his inferiors and that naval operations of such a nature are a national disaster.

UNFAIR PRESS CAMPAIGN

Other papers contend that Lord Beresford is the victim of an unfair press campaign. The Standard asserts that Lord Beresford signalled to Sir Percy Scott that he was quite right in disobeying a signal which the admiral had sent up during the recent maneuvers of the Channel fleet for an evolution which, if obeyed, would have brought the cruisers Argill and Gop Hope into collision and his intelligent and the Standard is helping toward the restoration of friendly relations between the two officers.

JUDGE WELLS WINS IN CONTRA COSTA

Friends of Good Government and an Honest Primary Victorious at a Spirited Election.

MARTINEZ, July 8.—The contest in Contra Costa county over the State primary was won by the regular Republicans yesterday by a safe majority.

SIGNAL VICTORY

Judge William S. Wells and his friends won a signal victory at the polls after a spirited battle. The result of the election places Judge Wells right in the front ranks as his enemies were lined up to defeat the primary plan. Opposition against him falls to the ground.

CAUSE OF CONTEST

The fight was precipitated by a letter written by Congressman Joseph K. Knowland to the chairman of the Republican County Central Committee of Contra Costa county, declaring in favor of placing the State primary law in operation in that county and pointing out the procedure necessary to be followed.

Mr. Knowland has favored the placing of the State primary law in operation throughout the entire Third Congressional district, pointing out to the voters from the several counties that under the primary law it was entirely optional with the electors as to whether the law should be mandatory in their various localities.

ELECTION CALLED

The Supervisors called an election to decide whether the voters would make the law mandatory in this county.

Judge Wells and his friends declared that they wanted the primary law made mandatory and went into the contest on the ground that they wanted fair primaries in the county, that is primaries that had all the safeguards of the State law.

OPPOSING FACTION

The opposing faction declared against primaries, that is, they wanted the old style primary, at which a voter could cast an illegal vote without being arrested and prosecuted.

Judge Wells and his friends made an honorable contest and they won on the day for good government and clean politics.

The total vote cast in the county was 2861, divided as follows: For primaries, 1491; against primaries, 1386, majority, 105 in favor of the State primary law.

The vote by towns is as follows:

**CONSIDER PURCHASE
OF NEW TYPE ENGINES**

ALAMEDA, July 8.—The matter of purchasing a new fire engine was considered at a meeting of the council committee on the whole, last evening, and fire Commissioner U. F. Chipman urged upon the council that "self propelled engines and trucks are the coming thing." Chipman cited the successful operation in Los Angeles of a self-propelling fire machine, and stated that Alameda was in ideal city for the operation of such engines and trucks. The merits of various sorts of engines and trucks were discussed, but no definite action was taken. The question of the purchase of a new engine will be considered at the next meeting of the council.

DOORA PARK!

The first act is a wonder! The song and chorus, "The King's Own Musketees," by Perse and the company is a magnificent piece of work. Miss Tasker as Yvette, the Inn Keeper's daughter, handles her part in a manner so dainty, so finished, so completely fasci-

ating that we wonder in admiration at her art and demand encore after encore after each of her pretty little efforts.

In all, "The Jolly Musketiers" is a splendid success, magnificently staged, elegantly costumed and wonderfully well managed.

You'll be glad you went if you go tonight. You'll agree with the critics that it's a two-dollar show and yet the best seat in the house costs but half a dollar.

Why, it's worth half a dollar, full \$, just to see the second half of the first act. It's simply GREAT!

## SUBSCRIBED FOR THE TRIBUNE THIRTY YEARS

"I have just stepped in to pay my subscription in advance for THE TRIBUNE up to October 1, 1908," said Captain Hall B. Rand, for many years a prominent member of the Oakland police department.

"I have been a subscriber to THE TRIBUNE for thirty years straight. During all these years I have had no cause of complaint. I like THE TRIBUNE because it is always on deck with the news played up in the best possible style."
